

Hack Academy's curated OSINT Resource List

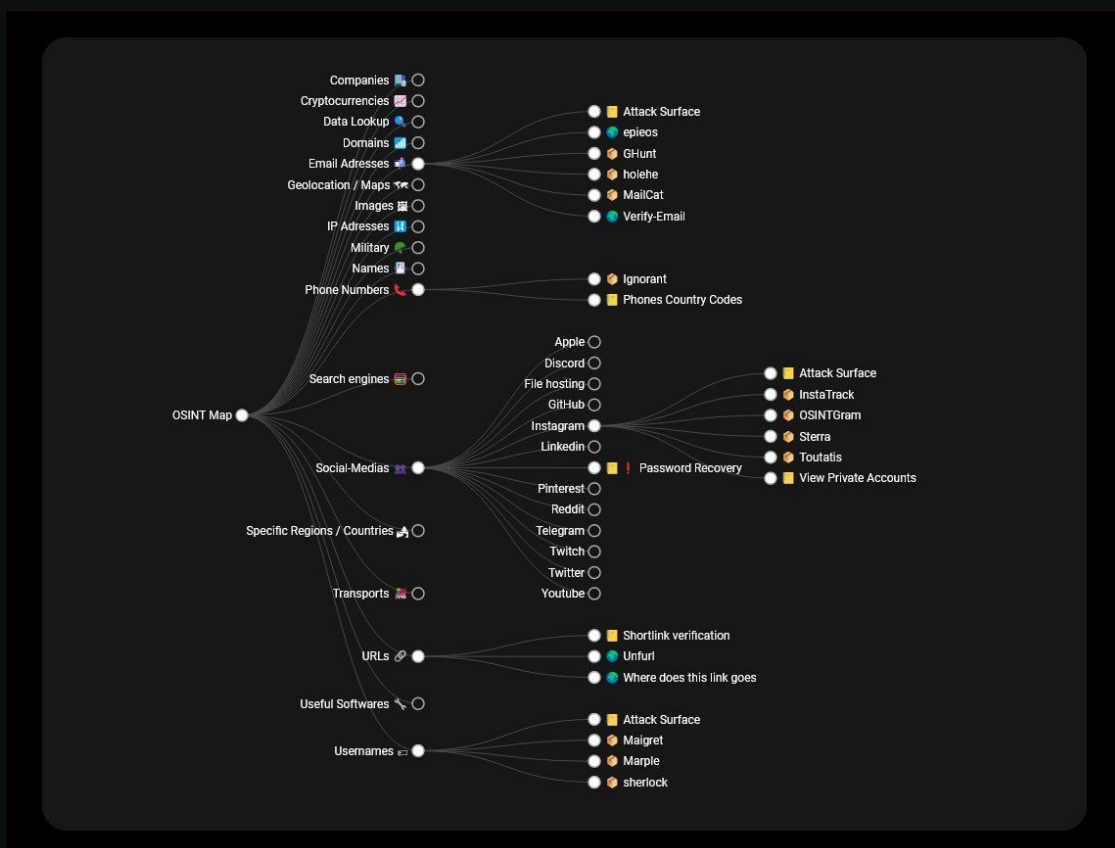

Introduction:

Welcome to Hack Academy's curated OSINT (Open Source Intelligence) Resource List! Whether you're diving into the world of investigative research, looking to expand your skills, or simply curious about how to gather valuable information from publicly available sources, you've come to the right place.

In today's digital age, the ability to leverage OSINT tools and websites is more crucial than ever. Whether you're tracking trends, analyzing social media footprints, or uncovering hidden data, these resources will empower you to explore the vast ocean of publicly accessible information.

We've compiled this extensive list to help you get started and give you access to some of the best tools out there. From searching leaked data to decoding encrypted messages, these resources will aid you in your investigations, research, and learning journey.

Let's dive in, and as always, use this knowledge responsibly and ethically!

Search Engines

PRIVACY-FOCUSED SEARCH ENGINES

1. [DuckDuckGo](#) A privacy-respecting search engine that doesn't track or store your personal information. Perfect for users who value online anonymity.
 2. [Swisscows](#) A secure alternative to Google. Swisscows doesn't monitor or save your data, making it ideal for privacy-conscious users.
 3. [Startpage](#) A Dutch search engine that emphasizes user privacy by not logging your searches or personal data.
 4. [Brave Search](#) Offered by Brave, this search engine focuses on privacy and neutrality while remaining ad-free.
 5. [Qwant](#) Based in France, Qwant respects user privacy and offers unbiased search results without tracking your activity.
-

GENERAL SEARCH ENGINES

1. [Google](#) The world's most popular search engine, known for its speed, vast database, and advanced features like voice search and image recognition.
 2. [Bing](#) Owned by Microsoft, Bing offers a visually rich search experience, including features like image search, shopping integration, and more.
 3. [Yahoo!](#) Yahoo's search is essentially powered by Bing but comes with additional features like news and mail integration.
 4. [Yandex](#) A leading search engine based in Russia, Yandex is tailored for Russian users but also offers global search capabilities.
 5. [Ecosia](#) A unique search engine that uses ad revenue to plant trees worldwide. Searching with Ecosia helps make a positive environmental impact.
-

SPECIALIZED SEARCH ENGINES

1. [Gigablast](#) A cryptographically-protected search engine focusing on privacy while offering lightning-fast results.
 2. [Mojeek](#) A search engine that provides unbiased results without tracking or personalizing your data.
 3. [Lycos](#) One of the older search engines, Lycos provides a straightforward and functional web search experience.
 4. [UVRX](#) A specialized file search engine that lets you locate files on platforms like Mediafire, Zshare, 4shared, and more. Perfect for finding specific resources across multiple file-hosting platforms.
 5. [DorkSearch](#) A powerful tool for creating prebuilt Google Dorks for specific use cases. Ideal for advanced search operators.
 6. [DuckDuckBang](#) A resource for creating custom search operators for DuckDuckGo, offering enhanced search efficiency.
 7. [ResearchBuzz Search Gizmos](#) A collection of advanced search tools and query builders for various use cases. Some tools may require API keys for access.
-

KNOWLEDGE-FOCUSED SEARCH ENGINES

1. [Wikipedia](#) The free encyclopedia that anyone can edit. It's a valuable resource for quick information on a wide variety of topics.
 2. [Ask](#) Formerly known as "Ask Jeeves," this search engine focuses on answering questions using information from the web and user queries.
-

Global Directory of Search Engines and Web Resources

Global Search Resources

- Search engines that cover multiple regions and languages
- International directories and meta-search tools
- Multi-language search capabilities

Asia

East Asia

CHINA

- Baidu - Primary Chinese search engine with features similar to Google
- Sogou - Major search platform
- SOHU - Portal for email, messaging, news, and shopping
- Sina - Online media and infotainment service provider
- 163 - Internet technology company focusing on applications and services

JAPAN

- Goo - Search engine and web portal specializing in Japanese language websites

SOUTH KOREA

- Naver - First web portal in South Korea with its own search engine
- Duam - Comprehensive portal offering search, email, messaging, shopping, and news

South Asia

INDIA

- Rediff - News and entertainment search platform
- IndianKanoon - Legal search engine for laws and interpretations
- 123Khoj - Search engine and web directory
- Tazaa - Indian search utilizing custom search technology
- SurfIndia - Business directory with location-based filtering

PAKISTAN

- SearchOye - Web, image, and video search engine
- Pakistanism - Content search focusing on Pakistan-related resources
- Rozee - Job search platform

Southeast Asia

MALAYSIA

- CARI - General-purpose search platform
- Malaysia Central - Comprehensive starting point for Malaysian online resources
- Malaysia Directory - Claims to be the country's largest portal

SINGAPORE

- Singapore Search Engine - Dedicated to Singapore-related websites

VIETNAM

- CocCoc - Vietnamese-optimized search engine

West Asia

IRAN

- Parseek - News article search engine
- Hasht - Iranian portal and search page
- Iranmehr - Persian search engine with directory services

ISRAEL

→Walla! - Search engine providing news and email services

Europe

Western Europe

FRANCE

- Francite - Premier French search engine
- ApocalX - AI-powered French search platform
- MisterFast - Search engine and website directory

GERMANY

→FastBot - German-language search with anonymous browsing options

UNITED KINGDOM

→Various regional and specialized search services

Eastern Europe

RUSSIA

- Rambler - Major Russian portal
- Mail.ru - Comprehensive platform for Russian speakers
- Aport - Goods and services search engine

POLAND

→Onet - Major web portal and search platform

Americas

North America

UNITED STATES

- Specialized regional search engines
- Government resource directories

→State-specific search platforms

CANADA

→LookSeek Canada - Private search engine without tracking

→LocatorCA - Canadian website search

South America

BRAZIL

→Aonde - Directory and search engine for Portuguese content

→Achei - Brazilian and Latin American content search

→Exploora - Semantic analysis search for Portuguese language

Africa and Middle East

Various regional search engines and directories serving specific countries and regions

Specialized Search Types

→Legal search engines

→Job search platforms

→Business directories

→Educational resources

→Government portals

Specialized Search Engines

Academic and Scientific

→Microsoft Academic - Search engine for academic publications and literature using semantic search

→WorldWideScience - Gateway to international scientific databases and portals

→Science.gov - Access to over 60 U.S. scientific databases

- BASE (Bielefeld Academic Search Engine) - Search through academic web resources
- Google Scholar - Search for scholarly literature across disciplines
- Semantic Scholar - AI-powered research tool for scientific literature

Data and Computation

- Wolfram|Alpha - Computational knowledge engine providing direct answers
- DataSearch - Search engine for research data
- Statista - Statistics and business data search platform
- Data.gov - Search through government datasets

Media Search

- Internet Movie Database (IMDb) - Films, TV shows, streaming content, and entertainment information
- fnd.io - Search engine for Apple App Store and iTunes
- Giphy - Search engine for GIFs
- TinEye - Reverse image search engine
- Getty Images - Professional image search
- CC Search - Search for creative commons licensed content
- SoundCloud - Audio and music search platform
- Podcastindex - Search engine for podcasts

Technical and Development

- GitHub - Search engine for code repositories
- Stack Overflow - Programming and technical Q&A search
- npm - Node package search
- Docker Hub - Container image search
- Developer Documentation Search - Search across multiple programming documentation sites

Alternative Search Approaches

- Million Short - Removes top popular sites from results

- 2lingual - Bilingual Google custom search
- DuckDuckGo - Privacy-focused search engine
- Wayback Machine - Historical website search
- StartPage - Private Google search proxy
- Ecosia - Eco-friendly search engine that plants trees

Tools and Utilities

- Keyword Tool - Google autocomplete-based keyword research
- AnswerThePublic - Visual keyword research tool
- Shodan - Search engine for Internet-connected devices
- Archive.org - Digital library of websites and other cultural artifacts
- There Is A Bot For That - Search engine for chat bots across platforms

Specialized Knowledge

- WikiIndex - Directory of wikis across various subjects
- Patents.google.com - Patent search engine
- Lexis Advance - Legal research platform
- PubMed - Medical and biological research search
- arXiv - Scientific paper preprint search

Business and Commerce

- Crunchbase - Company and business data search
- LinkedIn - Professional network search
- Indeed - Job search engine
- Bloomberg - Financial information search
- Yelp - Local business search

Meta Search Engines

- Dogpile - Combines multiple search engine results
- MetaCrawler - Aggregates results from major search engines
- Carrot2 - Clustering search engine
- SearX - Privacy-respecting metasearch engine

File Search

- FileChef - Direct file search engine
- PDF Drive - Search engine for PDF files
- SlideShare - Presentation search engine
- DocJax - Document search engine
- FileSearching - Search for various file types

Social Media Search

- Social Mention - Social media search platform
- Snapchat Map - Geographic social media search
- Reddit Search - Reddit-specific search engine
- Twitter Advanced Search - Detailed Twitter search tools
- Instagram Tags - Hashtag-based content search

News and Current Events

- Google News - News aggregation search
- Newslookup - News search engine
- AllSides - News from multiple political perspectives
- Factiva - Professional news search service
- NewsNow - Real-time news aggregation

Educational Resources

- MIT OpenCourseWare - Search through MIT's free course materials
- OER Commons - Search for open educational resources
- ERIC - Education research database
- Library of Congress Digital Collections - Historical document search
- Project Gutenberg - Free eBook search

Emerging Technologies

- Blockchain.com Explorer - Cryptocurrency blockchain search
- NFT Search Engines - Various platforms for finding NFTs
- AI Model Hub - Search for machine learning models
- Quantum Computing Resources - Specialized quantum computing search tools

Internet of Things (IoT)

- Thingful - Search engine for IoT devices
 - IoT Search - Connected device search platform
 - MQTT Search - Search for MQTT brokers and topics
-

Document and File Search Tools

Digital Libraries

- Library Genesis**
 - The largest free library collection with over 84 million scholarly journals, 6.6 million books, 2.2 million comics, and 381 thousand magazines
 - Commonly referred to as "Libgen"
- Library Genesis Technical**
 - Specialized version focusing on technical books, documentation and whitepapers
- SciHub**
 - Provides access to millions of research papers and books
 - Bypasses traditional access restrictions
- The-Eye**
 - Open directory data archive for long-term preservation

- Hosts over 140TB of data including websites, books, games, software, video, audio
- Free access to digital archives

→ **The-EyeDex**

- Searchable index of the-eye.eu
- Faster alternative to manual directory searching

Presentation Platforms

→ **SlideShare**

- Platform for uploading presentations, infographics, documents, and videos
- Supports PowerPoint, Word, PDF, and OpenDocument formats
- Public and private upload options

→ **Slideshare Downloader**

- Tool for downloading Slideshare documents via URL

→ **SlideServe**

- Large collection of searchable PowerPoint presentations
- Covers various topics

Academic Resources

→ **Directory of Open Access Journals**

- Over 16,000 journals
- 6.5 million articles in 80 languages
- Content from 129 countries

→ **FreeTechBooks**

- Database of free computer and IT books
- Open-access technical content

→ **CiteSeerX**

- Digital library focusing on computer and information science
- Scientific literature search engine

File Search Tools

→Napalm FTP Indexer

- Search and download from public FTP servers
- Advanced FTP search capabilities

→FileChef

- Search for open directories and files
- Includes documents, video, audio, images
- Uses Google dorks for searching

→Palined Open Directory Search

- Keyword-based file and directory search
- Google CSE implementation

→Gdrive Search

- Simple tool for Google Drive file searching

→FilePhish

- OSINT Google query builder
- Designed for document and file discovery
- Created by @aleksanderrr_

→FilePursuit

- Search open directories
- Finds files, documents, books, images, videos

Document Tools

→ManualsLib

- Resource for product manuals
- Keyword and brand search options

→FreeFullPDF

- Google CSE for scientific publications

→Open Directory CSE

- Google CSE for open directories

→GroupDocs Metadata

- Document metadata viewer
- Supports over 50 file types

Book Resources

→ISBNdb

- Comprehensive book data from libraries, publishers, merchants
- Search by ISBN, title, author, or publisher

→ISBN Search

- Book information via ISBN lookup

→OAPEN

- Collection of open access books

→WorldCat

- Search for books in public libraries
- Library location finder

→Anna's Archive

- Book cataloging project
- Aggregates data from various sources
- Created by @AnnaArchivist

File Sharing Networks

→Snowfl

- BitTorrent index keyword search

→ThePirateBay

- Well-known torrent site
- Note: Exercise caution regarding malware

→TorrentSeeker

- Searches over 100 torrent sites
- Torrent proxy and tracker search

→TorLock

- Verified torrent directory

→1337x

- Directory of torrent files and magnet links
- Peer-to-peer file sharing

→BTDigg

- BitTorrent DHT search engine

Additional Search Tools

→IntelX File Search

→Professional file and document search engine

→deDigger

→Google Drive keyword search

Historical Archives

→Smithsonian Libraries

Meta Search Engines

Comprehensive Meta Search Tools

1. Fagan Finder One of the most versatile metasearch tools available. It allows you to search through search engines, social media platforms, encyclopedias, libraries, news sites, government databases, documents, and more—all in one place.
2. DogPile A metasearch engine that gathers results from major search engines like Google, Yahoo!, Bing, and Yandex, along with results from audio and video content providers.
3. All in One Combines results from all major search engines into one. You can even configure and customize your own search engine for more tailored results.
4. iZito Aggregates search results from multiple sources, including Google, Bing, YouTube, Yahoo!, Wikipedia, and more, for a more comprehensive overview.
5. eTools A Swiss-based metasearch engine that queries both Swiss and international search engines, such as Google, Bing, Brave, Qwant, DuckDuckGo, Mojeek, and others.
6. Zapmeta A close alternative to iZito, Zapmeta pulls together results from multiple search engines to provide consolidated results.
7. WebCrawler The oldest surviving search engine on the internet, WebCrawler was the first to provide full-text searching

capabilities. It continues to operate as a basic but functional metasearch tool.

8. [MyAllSearch](#) A multi-engine search platform that compiles results from Google, Bing, Yahoo!, DuckDuckGo, and more. It offers web, image, video, news, and blog search options.
 9. [BizNar](#) A specialized metasearch engine that submits your query to other search engines, ranks results, removes duplicates, and delivers high-quality information.
-

Localized or Custom Search Tools

1. [I Search From](#) Simulates Google searches from a different location or device, allowing you to customize settings such as language, location, and more.
 2. [U Search From](#) Similar to I Search From, this tool lets you simulate Google searches as if you were in a different location or using a different device.
 3. [Valentin.app](#) A simple tool for generating localized search engine results pages (SERPs) without needing additional software or tools.
-

Specialized Meta Tools

1. [Advangle](#) Build complex queries with parameters like domain, language, and publication date, and view the results in Google or Bing. Ideal for advanced searches.
 2. [GNOD Search](#) Allows you to search multiple engines simultaneously and compare results side by side.
 3. [ScrapersnBots](#) A massive collection of OSINT tools that can help you search for usernames, perform Google image searches, extract URLs, and more. Perfect for open-source intelligence tasks.
 4. [Exalead](#) A powerful data discovery and indexing platform, useful for deep web searches and enterprise-level data gathering.
-

Similar Site Search Tools

1. [SimilarSites](#) Enter any website URL to discover similar websites in terms of content, functionality, or niche.
2. [SitesLike](#) Search for websites similar to a given URL or keyword to find competitors or related sites.
3. [SimilarWeb](#) An excellent tool for finding competitor websites or analyzing similar websites based on a given URL. Great for market research.
4. [SiteLike](#) A straightforward tool to discover related websites by entering a URL.
5. [Alexa Similar Site Search](#) (Offered by Amazon) A robust tool to find related websites. A paid subscription unlocks even more detailed results.

Search Engines

Video Search

1. **Filmot** A video search engine that allows you to search videos using auto-generated or manually uploaded subtitles. Ideal for finding specific moments or dialogues.
2. **YouTube** The largest video-sharing platform in the world. You can find videos on virtually any topic, from tutorials and entertainment to educational content.
3. **Vimeo** A high-quality video-sharing site that supports 4K content. It also provides tools for post-production, content management, collaboration, and feedback.
4. **PeteyVid** A robust video and audio search engine that searches across more than 70 platforms, providing results from diverse sources.
5. **Odysee** A decentralized video-sharing platform that operates on the LBRY blockchain network. Known for its focus on freedom of speech and creator-friendly policies.
6. **Bilibili** A popular Chinese video-sharing website similar to YouTube, with a focus on animation, gaming, and pop culture content.
7. **GetYarn** A unique tool that allows you to find specific video clips by searching for quotes or keywords.

Podcast Search

7. **ListenNotes** A comprehensive podcast search engine that indexes over 118 million episodes. It also lets you create podcast playlists and clip interesting sections from episodes.
-

Code Search

7. [grep.app](#) A tool that allows you to search for text strings across more than half a million Git repositories. Perfect for developers looking for examples in open-source code.
 7. [SearchCode](#) A free search engine for source code that supports 243 programming languages. It helps you find real-world examples of functions, APIs, and libraries across public code sources.
 7. [SourceGraph](#) A web-based code search and navigation tool that indexes over a million open-source repositories. Great for developers working on large projects or exploring public repositories.
 7. [Source Code Search Engine](#) A search tool to locate specific alphanumeric snippets, signatures, or keywords within the HTML, JavaScript, and CSS code of web pages.
-

Blog, Forum, and Image Board Search

7. [Blog Search Engine](#) A powerful tool for searching blogs online. It allows you to search for specific blogs, submit your own, or subscribe to RSS feeds for specific topics.
 7. [WordPress Blog Search](#) A custom Google search engine that helps you find WordPress blogs and related images using keywords.
 7. [OSINT Blog Search](#) A specialized search tool for finding OSINT (Open Source Intelligence) blogs, articles, tools, and resources.
 7. [BoardReader](#) A search engine that indexes forums, message boards, and image boards, making them searchable by keywords. Results include sites like Reddit, 4chan, and other niche platforms.
-

Job Search

7. [Indeed](#) A leading global job search platform that aggregates millions of job listings. It's widely used by job seekers and employers alike.

7. [Monster](#) A well-established job search site that connects employers with qualified candidates across various industries and locations.
 7. [Glassdoor](#) A platform where employees can anonymously share company reviews, salaries, and workplace insights. It also doubles as a job board for finding open roles.
 7. [ZipRecruiter](#) A user-friendly job search engine that lets you browse millions of job postings by location, industry, and role.
 7. [OSINT Jobs](#) A specialized job board featuring OSINT-related opportunities worldwide. It's regularly updated and tailored for professionals in open-source intelligence.
-

Archive Search

7. [Internet Archive](#) A massive digital library offering free access to books, movies, music, software, and archived websites.
7. [Wayback Machine](#) A tool provided by Internet Archive that allows users to view historical snapshots of websites. Perfect for research or nostalgia.
7. [Archive.today](#) An archive platform that captures and stores snapshots of web pages for long-term access.
7. [MementoWeb Time Travel](#) A meta-archive search tool that consolidates results from Internet Archive, Archive-It, GitHub, British Library, and other archival services.
7. [Google Cache](#) Google maintains cached versions of web pages as a backup. Add a URL after this link to access the cached version.
7. [Bing Cache](#) Bing provides cached web pages. Simply search url: in Bing, click the drop-down arrow beside the result, and select "Cached."
7. [iTools](#) More than just an archive site, iTools also analyzes websites, offering data on traffic, reputation, Alexa rank, and contact information.
7. [Arquivo](#) A Portuguese web archive offering access to preserved web content from as far back as 1996.

7. [EU Web Archive](#) The official archive of EU institutions, preserving content from websites hosted on the .eu domain.
 7. [TheOldNet](#) A nostalgia-driven archive that allows users to view how websites looked in the past.
 7. [Quick Cache and Archive Search](#) A versatile tool for searching cached and archived versions of websites using various search engines and archive services.
 7. [Archive Portal Europe](#) Search a wealth of digital archives from across Europe for names, organizations, and geographic locations.
 7. [CachedPages](#) Enter any URL to view cached or archived versions of the webpage.
-

Software Search

7. [Internet Archive Vintage Software Collection](#) A treasure trove of historical software designed for research, study, and preservation. Includes programs for rare and obsolete hardware.
 7. [OldVersion](#) A database of older software versions for various applications, drivers, and games. Great for compatibility needs or nostalgia.
 7. [WinWorldPC](#) An online museum of vintage and abandoned software, offering downloads and information for classic operating systems and applications.
 7. [RetroArchive](#) A collection of software and documentation for classic computing systems, initially focused on CP/M but now expanded to other platforms.
 7. [Macintosh Repository](#) An archive dedicated to preserving software from the classic MacOS era.
 7. [DOS Games Archive](#) A collection of over 1,100 DOS games, including shareware, freeware, demos, and public domain titles.
 7. [Atari Archives](#) Features books, software, and information for Atari systems and other retro computers.
-

Newspaper and News Search

7. [NewspaperMap](#) An interactive tool for exploring newspaper publishers around the globe. Zoom into specific areas to view local newspapers.
 7. [EMM News Search](#) A global news search tool that aggregates articles from various sources. Great for researching companies or notable individuals.
 7. [NewspaperArchive](#) A vast database of newspaper articles from around the world. Requires a subscription for full access.
 7. [AllYouCanRead](#) A directory of news sites and newspapers organized by country and region.
 7. [BuzzSumo Content Search](#) Analyze any domain and discover its most popular articles on social media. Includes time filters for better insights.
 7. [Newspaper Navigator](#) A Library of Congress tool that contains over 1.5 million newspaper articles with accompanying images.
 7. [OnlineNewspapers](#) An index of thousands of newspapers worldwide.
-

Paste Sites

7. [PSBDMP](#) A paste search tool for finding leaked data such as email-password combinations, user credentials, and more.
7. [Pastebin Search](#) Search across over 33 paste sites with a Google Custom Search Engine (CSE).
7. [Online IDE and Paste Search Engine](#) Search for specific text strings across IDEs, code aggregators, and paste-sharing platforms.
7. [Leaked Wiki](#) A database of scraped pastes, files, and links to leaked information.
7. [Doxbin](#) A controversial platform for sharing and searching personally identifiable information (PII).

Social Media Intelligence (SOCMINT)

GENERAL SOCIAL MEDIA TOOLS

1. World Social Media Platforms

Explore popular social media platforms by country with this tool from [@osintcombine](#).

2. EffectGroup

Search for people using their username, email, real name, or phone number. Build comprehensive dossiers by retrieving data from social media, breaches, and documents. Requires a paid subscription after the first search.

3. OnePlus OSINT Toolkit

A versatile toolkit to explore Facebook, Instagram, Twitter, Reddit, Snapchat, YouTube, Periscope, Twitch, LinkedIn, and more.

4. SMAT (Social Media Analysis Toolkit)

Analyze and visualize trends across platforms like Reddit, Gab, Parler, 4chan, Telegram, and others.

5. SkyLens

Locate geotagged posts from platforms like Twitter, YouTube, Instagram, Flickr, and VKontakte on a single map.

6. Export Comments

Export comments and other data to .xls from platforms such as Facebook, Twitter, Instagram, YouTube, TikTok, VK, Twitch, Discord, and Steam. Free for up to 100 comments; paid subscription removes limitations.

7. Synapsint

A unified OSINT research tool that gathers and displays data from domains, IPs, emails, phone numbers, Bitcoin addresses, and more.

8. RandomTools

A toolkit for searching Facebook, Twitter, Instagram, Reddit, and

YouTube. Includes functions like finding user IDs and Reddit comment searches.

9. **Social-Searcher**

Real-time search across platforms like Facebook, Instagram, Twitter, YouTube, and Reddit. Provides deep analytics without requiring user login.

10. **SocialBlade**

Track user statistics for YouTube, Twitch, Instagram, and Twitter accounts.

11. **Shreateh Social Media Tools**

A comprehensive collection of tools for platforms like Facebook, YouTube, Instagram, Twitter, and TikTok.

12. **Kriburm**

A Russian social media search engine with author and time period filters.

13. **AussieFinder**

Searches across five social media networks for Australian citizens using a Google Custom Search Engine (CSE).

14. **Social Salary Calculator**

Calculate how many followers or views are needed to match a specific salary.

15. **SignalHire**

Find emails and phone numbers with this tool. Requires a paid subscription.

16. **SocialNetworkHarvester**

Collect, analyze, and visualize data from various platforms. Paid subscription required.

17. **Tagdef**

Discover hashtag meanings or contribute your own definitions with this "Social Media Dictionary."

18. **Alternative Social Platform Search**

A Google CSE to explore non-mainstream platforms like Parler, Gab, Minds, Rumble, JustPaste.it, and more.

19. **IntelTechniques OSINT Tools**

An extensive OSINT toolset from IntelTechniques by Michael Bazzell.

20. PhantomBuster

Cloud-based data extraction tool for scraping data from Twitter, Facebook, LinkedIn, and Instagram. Exports to CSV and JSON formats. Paid subscription required.

21. HuntIntel

Locate Instagram and Facebook places, VK photos, public Snapchat stories, tweets, and more by location. Registration required.

PLATFORM-SPECIFIC TOOLS

Bitmoji

1. BACKMOJI

Retrieve the Bitmoji avatar history by entering a Bitmoji ID and version number.

Clubhouse

1. ClubhouseDB

Analyze Clubhouse users and clubs through this free database.

2. RoomsOfClubhouse

Search for open and scheduled rooms in the Clubhouse app.

3. ClubSearch

Explore rooms based on keywords.

4. Avatar Reverse Search

Perform reverse face searches across 4.5 million Clubhouse avatars.

Discord

1. DisBoard, DiscordBee, and DiscordServers

Search public Discord servers with these tools.

2. DiscordHub User Search

Locate Discord users using their IDs.

3. UnfURL

Extract additional timestamp details from Discord URLs.

4. **Discord Snowflake to Timestamp**

Use "snowflake" IDs to determine creation dates for accounts or servers.

5. **Discord History Tracker**

Save and view chat history offline. Note: This tool violates Discord's Terms of Service.

6. **Lookup Guru and DiscordName**

Enter Discord IDs to view account creation dates.

7. **Top.gg**

Search for Discord bots.

8. **DisTools and DiscordList**

Search for server information, including user details and invite links.

9. **Public Flag List**

Reference guide for Discord profile badges.

Facebook

1. **OSINT Combine Facebook Tools**

Efficiently search multiple keywords or IDs simultaneously.

2. **2019 Facebook Breach Search**

Explore data from the 2019 Facebook data breach. Requires a TOR or clearnet proxy.

3. **WhoPostedWhat?**

Search for posts based on keywords, specific dates, and locations.

4. **SOWsearch**

Experimental interface for Facebook's search functions.

5. **Facebook Matrix**

Techniques for advanced searches on Facebook.

6. **Search is Back**

Find people and events by name, location, relationship, gender, and more.

7. **StalkFace**

Analyze Facebook accounts via URLs. Results may vary.

8. **Facebook Image Search**

Google CSE for finding images on Facebook.

9. IntelX Facebook Search

A dedicated Facebook search engine by IntelX.

10. Lookup-ID

Retrieve Facebook user, group, or page IDs.

11. Facebook Live Map

Discover live streams by location.

12. Crowdtangle Facebook Video Search

Meta's tool for searching Facebook videos. Registration required.

13. Facebook Ads Library

Explore active and archived ads across Meta platforms.

Platform-Specific Tools

FLICKR

1. Flickr Maps

Displays image metadata from Flickr plotted on a map.

2. idGettr

Enter a Flickr photo stream URL to retrieve the Flickr ID number (works for groups too).

3. Flickr Photopool Contact Network

Analyzes Flickr groups and generates a list of usernames of participants.

GITHUB

1. GitHub Rater

Rates GitHub profiles using data retrieved from the GitHub API.

2. CommitsTop

A leaderboard of the most active GitHub users, sorted by country.

3. Gitstar Ranking

An unofficial ranking system for GitHub users, organizations, and repositories based on stars.

1. [GitHubCompare](#)

Compare two GitHub repositories for insights.

2. [GitHub Profile Summary](#)

View detailed statistics and activity for any GitHub profile.

3. [SEART GitHub Search](#)

Advanced search engine for GitHub with multiple filters.

4. [Gitvio](#)

Access detailed GitHub profile data by entering a username.

5. [ReposTimeline](#)

Generate a timeline of repositories and forks for any GitHub user.

6. [OSS Insight](#)

Analyze GitHub developers and repository data based on billions of events.

GRAVATAR

1. [Gravatar Email Search](#)

Search for a Gravatar profile by entering an email address.

INSTAGRAM

1. [SearchUsers](#)

Search for Instagram users by name or username.

2. [SearchMyBio](#)

Search Instagram bios to find profiles by location, interests, or other listed details.

3. [ImgInn](#)

View profiles, download photos, videos, and stories, and watch anonymously.

4. [InFlact](#)

Analyze public Instagram profiles for detailed statistics and content.

5. [Worldcam](#)
Search Instagram posts by location to view nearby or global posts.
6. [BearPanther Insta Map](#)
Maps geo-tagged Instagram posts.
7. [MetaHashtags](#)
Explore Instagram hashtags with analytics, sorting, and export options.
8. [Pixwox](#)
Download Instagram photos and videos online.
9. [Dumpor](#)
View profiles, stories, and tagged posts anonymously and download content.
10. [Picuki](#)
Search and edit Instagram content without logging in.
11. [Gramhir](#)
Search profiles and hashtags without requiring an account.
12. [StoriesDown](#)
View and download Instagram stories anonymously.
13. [Bibliogram](#)
A simplified view of Instagram profiles with faster loading, RSS feeds, and no ads (discontinued).
14. [Instadp](#)
View full-size Instagram profile pictures and download photos, videos, and stories.
15. [InstaFollowers](#)
Extract Instagram user IDs by username.
16. [Find Instagram User ID](#)
Retrieve user IDs directly from usernames.
17. [iGram Downloader](#)
Download images, videos, and IGTV posts via URL.
18. [InstaHunt](#)
Display Instagram posts by geographic location.
19. [InstaNavigaton](#)
View Instagram profiles without registering an account.

20. [Iganony](#)

Anonymously view Instagram profiles and download posts.

21. [InstaFreeView](#)

View Instagram profiles anonymously without logging in.

KIK MESSENGER

1. [Kik User Information](#)

Retrieve information about Kik users, including their full name, profile picture, and profile picture's timestamp.

2. [KikMe Username Search](#)

Check if a username exists and view basic details like profile picture and full name.

3. [KikUsernames](#)

Search for Kik usernames.

LINKEDIN

1. [Recruit'em X-Ray Search](#)

Generates Boolean search strings to find LinkedIn profiles.

2. [FreePeopleSearchTool](#)

Locate LinkedIn profiles without needing an account.

3. [Chartloop](#)

Visualize an organization's team structure. Paid subscription required.

4. [LinkedIn Prospect Boolean Search](#)

Build Boolean search strings for targeted LinkedIn user lists.

5. [LinkedIn User Search](#)

Use a Google Custom Search Engine to search LinkedIn profiles.

6. [Lisearcher](#)

Use Boolean search to find public LinkedIn profiles.

7. [IntelX LinkedIn Search](#)

Advanced LinkedIn search offered by IntelX.

MASTODON

1. [NOC Social Search](#)

Discover accounts across Mastodon and other Fediverse instances.

2. [CommotionMade](#)

Bulk search for Mastodon users using lists of usernames.

3. [MastoVue](#)

Browse public timelines and search hashtags.

4. [Imagstodon](#)

Search profile images across over 100 Mastodon instances.

5. [Fediverse Mapping Project](#)

Interactive map of over 120,000 Mastodon instances.

6. [FollowGraph](#)

Analyze the accounts followed by any Mastodon profile's followers.

7. [Movetodon](#)

Identify Twitter followers who are also on Mastodon.

OnlyFans

→[OnlyFinder](#)

Search for accounts and images by username, keyword or geographical location.

→[OnlySearch](#)

Search for OnlyFans accounts via username or keywords.

→[FansMetrics](#)

Lets you search for accounts by username and provides metrics and analytics for a given account.

→[FindrFans](#)

Allows you to search by a username, country, and a few different US states.

→[Hubite](#)

OnlyFans profile search, includes a price filter.

→[SimilarFans](#)

Search for OnlyFans accounts by category, location or popularity. Also offers reviews and ratings.

[→OnlyFans Law Enforcement Guide](#)

A guide for law enforcement on what to do when dealing with OnlyFans investigations.

[→Sotugas](#)

A directory of OnlyFans creators located in Portugal.

Parler

[→Parler Archive](#)

A searchable dataset of the Parler social network. Currently down, keeping this here in case it goes live again.

[→Parler Database](#)

Download the entire Parler database provided by DDoSecrets.

Patreon

[→Graphtreon](#)

Provides information and statistics for Patreon accounts such as earnings, rank, creation date, and more.

Pinterest

[→PinGroupie](#)

A massive Group Pinterest board directory with over 29,000 group boards listed. Also has an advanced search function.

[→Pinterest Site Map](#)

A site map of Pinterest users, collections, and topics.

Reddit

[→Camas Reddit Archive Search](#)

One of the best Reddit archives out there. Search for deleted posts

and comments. Allows you to search by username, subreddit, date range, string, or a combination of all.

→[Camas Reddit Archive Search #2](#)

Essentially a clone of the above.

→[Adhesivecheese Reddit Search](#)

Another clone of the Camas Reddit archive search tool.

→[Reveddit](#)

A searchable archive of removed content on Reddit. Search by username, subreddit, link, or domain.

→[Reddit User Analyzer](#)

Helps analyze a Reddit user's account and provides you with various metrics.

→[Reddit Comment Search](#)

Search through comments of a particular Reddit user.

→[ReSavr](#)

This site archives deleted comments on Reddit and lets you search them via keyword.

→[Pushshift Reddit Search](#)

A comprehensive search engine and real-time analytics tracker for Reddit.

→[Map of Reddit](#)

A very organized interactive map of subreddits.

→[YASIV Reddit Visualization](#)

Search for a subreddit and view an interactive chart of related subreddits.

→[RedditMetis](#)

Enter a username and see recent activity, comment, and submission summaries, word cloud, and more interesting stats. Data is generated from the last 1000 comments and submissions.

→[Redective](#)

Search for a username or subreddit and view in-depth statistics about it.

→[The-Eye Subreddit Archive](#)

A collection of archived subreddits from the-eye.eu. Includes some NSFW subreddits.

- [Reddit Archive](#) A non-searchable historical archive of Reddit posts. Almost useless, but still worth mentioning.
 - [Rdddeck](#) A simple tool for monitoring subreddits.
 - [DeaditArchive](#) A small archive of various banned subreddits.
 - [Subreddit User Overlaps](#) Type a subreddit name to list its overlaps with other subreddits.
 - [Teddit](#) An alternative, privacy-respecting, Reddit front-end.
 - [libreddit](#) Another alternative front-end for Reddit.
 - [SocialGrep](#) Allows you to track and set alerts of posts of your preference. They also have historical data going back to 2010.
 - [Reddit Scraper](#) Crawl posts, comments, subreddits, and users without having to login.
 - [Redditle](#) A Reddit-only Google search tool. Essentially the same as adding site:reddit.com to a Google search.
 - [Better Reddit Search](#) Reddit search tool for posts and subreddits that has boolean filters via keywords and publication date.
 - [Reddit about.json](#) Use the official Reddit service to view more details about a user. Example: <https://www.reddit.com/user/USERNAME-HERE/about.json>.
 - [LaterForReddit](#) Use this tool to examine popular post trends for a given subreddit. It'll examine the top 1,000 posts in that subreddit in the past month/year, and tell you when they were posted.
 - [RedditDownloader](#) Enter a username or subreddit and this tool will automatically download all images, videos, and GIFs.
-

SnapChat

- [Snap Map](#) An interactive map that allows you to view public snaps from a specific location, simply click on a general area.
- [Snap Code Search](#) Search for a username and see their Snap Code. Simply edit the URL and input a username, like so.

- [SnapChat Stories](#) Enter a username and view any of their public SnapChat stories as well as account information like display name, Snap Code and Bitmoji avatar.
 - [GhostCodes](#) Snapchat discovery platform that enables you to find new people to follow on Snapchat, and allows "influencers" to grow their following.
 - [PDF Snap Inc. Law Enforcement Guide](#) A very useful guide for law enforcement when dealing with SnapChat during an investigation.
 - [Archived copies can be found here \(Wayback\)](#) and here (Library Genesis).
 - [SoVIP Influencer Search](#) Search for SnapChat users by username or location. Very limited results, and some results may be NSFW.
 - [OSINTCombine SnapChat Multi-Viewer](#) Enter a location and view multiple SnapChat stories at once.
-

Social Media OSINT Tools

1. Twitter/X

- [TinfoLeak](#): A tool for creating detailed dossiers on Twitter users, including data like name, username, location, followers, devices, operating systems, hashtags used, user mentions, and more.
- [AccountAnalysis](#): A tool for evaluating the level of automation in a Twitter account, retweeting habits, and frequent website links.
- [Account Change History Search](#): Shows the history of changes made to a user's Twitter profile, including bio, location, and name changes.
- [Advanced Search on Twitter](#): Describes advanced Twitter search operators to help refine search results on the platform.
- [TruthNest](#): Analytics and statistics for a Twitter account, with insights on tweets, followers, and engagement.
- [TweetBeaver](#): A collection of tools for analyzing Twitter accounts, including engagement patterns and metadata.

- **Shadowban Test**: Test if a Twitter account is shadowbanned, meaning its posts are hidden or restricted.
 - **GeoSocial Footprint**: Allows users to view a Twitter user's geo-social footprint by analyzing their location-tagged tweets and social check-ins.
 - **BotSentinel**: A tool that tracks and classifies inauthentic accounts, bots, and trolls on Twitter.
 - **FollowerAudit**: In-depth analysis of Twitter followers to identify fake or inactive accounts based on profile data and behavior.
 - **SocialBearing**: Provides insights into users' tweets, hashtags, and engagement patterns.
 - **TweetBeaver**: Various tools to help analyze Twitter accounts.
 - **TweetTopicExplorer**: Retrieves recent tweets and displays the most common words used in those tweets.
 - **MyTweetAlerts**: Search Twitter for important tweets and set custom alerts.
 - **FollowerWonk**: Search Twitter bios, analyze location and activity of followers, and compare users.
 - **BirdHunt**: A query-building tool for finding recent tweets based on location and keywords.
-

Social Media Tools (Other Platforms)

1. VKontakte (VK)

- **Photo-Map**: Search for geo-tagged posts from vk.com.
- **VK Search Engine**: A Google Custom Search Engine (CSE) for searching VK profiles.
- **Spevktator**: A searchable database of over 67,000 posts, with a CLI tool.

2. WhatsApp

- **WACheck**: Enter a WhatsApp number and see if the user is currently online.

- [WATools](#): Download WhatsApp profile pictures, check phone numbers, and see if users are online.
 - [WhatsAnalyze](#): Analyze WhatsApp group messages, providing statistics like word clouds and timelines.
 - [ChatVisualiser](#): A tool for visualizing WhatsApp chats.
-

YouTube Tools

1. YouTube

- [YouTube GeoFind](#): Find geo-tagged videos and view them on a map.
- [YouTube Comment Finder](#): Find comments for videos by searching with video IDs or channel names.
- [Amnesty International YouTube DataViewer](#): Enter a video URL to view its metadata.
- [Unlisted Video Search](#): A platform to search for and watch unlisted YouTube videos.

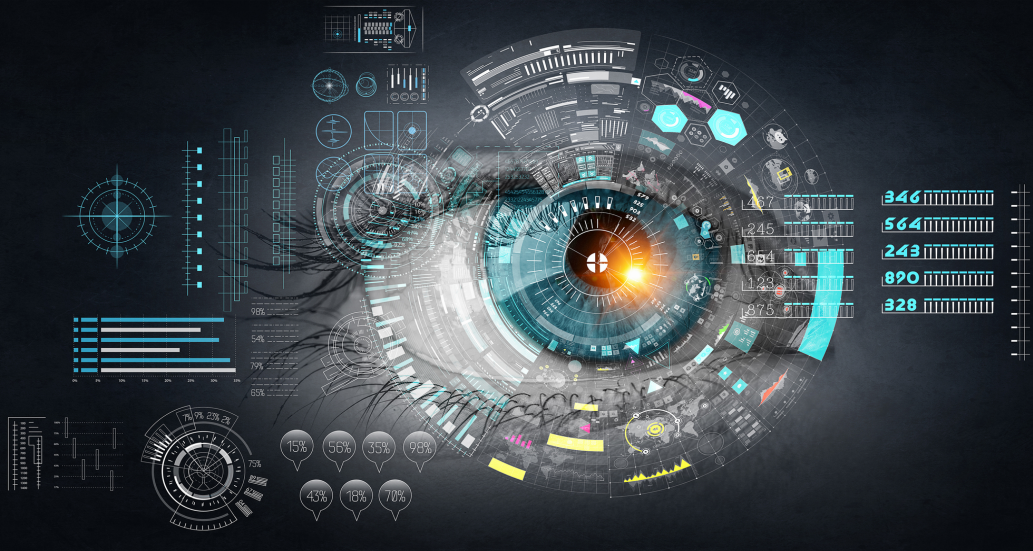

2. YouTube Video Downloading and Metadata Tools

- [PwnYouTube](#): Download a YouTube video by adding "pwn" to the URL.
 - [Get YouTube Thumbnail](#): Download the thumbnail of any YouTube video.
 - [Filmot](#): A search engine for YouTube subtitles and video metadata.
 - [YoutubeVideoFinder](#): Search for archived versions and gather other video information by YouTube video ID.
-

General Social Media & OSINT Tools

1. 4chan and 8chan

- [Archived.moe](#): A searchable archive of most 4chan boards.
- [Desuarchive](#): A searchable archive of various 4chan boards.
- [4plebs](#): A searchable archive of specific 4chan boards, including /pol/, /tv/, /sp/, and more.
- [Qresearch](#): A searchable archive of "QAnon" related posts from 8kun/8chan.

Geospatial Intelligence (GEOINT) and Mapping Tools

GENERAL MAPPING SERVICES

→Google Maps

A popular web mapping service from Google, providing features such as satellite imagery, street maps, real-time traffic, and route planning for various modes of transport.

[Google Maps](#)

→Bing Maps

A mapping service offered by Microsoft as part of the Bing search engine, providing interactive maps and directions.

[Bing Maps](#)

→OpenStreetMap

A collaborative, open-source project designed to create and provide free editable maps of the world.

[OpenStreetMap](#)

→Soar Earth

This platform enables exploration and downloading of satellite, aerial, and drone imagery of Earth.

[Soar Earth](#)

→LocalFocus GIS Toolkit

A collection of mapping tools tailored for investigative research

and journalism.

[LocalFocus GIS Toolkit](#)

→**F4 Map**

An interactive 3D world map for exploring geospatial data.

[F4 Map](#)

→**Image Hunter**

A specialized search engine featuring over 115 million images and satellite data from around the world.

[Image Hunter](#)

→**HereWeGo Maps**

A free mapping service similar to Google Maps, offering offline map downloads for mobile users.

[HereWeGo Maps](#)

→**MapQuest**

An online mapping service offering driving directions, live traffic updates, and nearby business information.

[MapQuest](#)

→**Maxar Archive Search**

A comprehensive platform for commercial satellite imagery, allowing users to explore and download historical images (subscription required for best results).

[Maxar Archive Search](#)

→**Sentinel Hub EO Browser**

A browser-based tool offering access to satellite imagery data to support environmental and geographical analyses.

[Sentinel Hub EO Browser](#)

→**Terria Australia**

A resource for Australian geospatial investigations, providing high-resolution imagery and mapping tools.

[Terria Australia](#)

→**GeoHack Tools**

A collection of tools for geospatial intelligence, offering maps, satellite imagery, live weather, flight tracking, and more.

[GeoHack Tools](#)

→**NOAA Digital Coast**

A service offering tools, data, and training to manage coastal resources, with a focus on climate adaptation and ocean planning.

[NOAA Digital Coast](#)

→**Wikimapia**

An interactive map and wiki system to mark and describe geographical locations worldwide.

[Wikimapia](#)

→**City-Data**

A platform providing detailed profiles of cities across the U.S., including data on crime, weather, demographics, and more.

[City-Data](#)

→**360cities**

An interactive platform allowing users to explore panoramic images taken from different locations worldwide.

[360cities](#)

→**EOS Land Viewer**

A satellite observation tool offering imagery and insights for business and environmental purposes.

[EOS Land Viewer](#)

→**Global Wetlands Map**

An interactive map of wetlands, including marshes, swamps, and floodplains worldwide.

[Global Wetlands Map](#)

→**FreeMapTools**

A resource providing tools to measure distances, search locations, and mark up maps for various purposes.

[FreeMapTools](#)

→**ArcGIS Living Atlas of the World**

A comprehensive collection of geographic information, including maps and data layers from around the globe.

[ArcGIS Living Atlas](#)

→**Overpass Turbo**

A web tool to run Overpass API queries for OpenStreetMap data and

display the results on an interactive map.

[Overpass Turbo](#)

→**MapChannels**

A service allowing users to embed customizable maps into websites or blogs, supporting various data formats like KML and GeoRSS.

[MapChannels](#)

→**ISRO Geoportal**

A portal providing visualization services and Earth observation data from the Indian Space Research Organization (ISRO).

[ISRO Geoportal](#)

→**GPS Coordinates**

A simple tool to retrieve GPS coordinates for a specific address or landmark.

[GPS Coordinates](#)

→**SunCalc**

A tool that calculates the sunrise and sunset times based on location.

[SunCalc](#)

→**WhoDidIt**

A service that identifies users who have edited specific areas on OpenStreetMap.

[WhoDidIt](#)

→**Dual Maps**

A tool for combining Google Maps, aerial imagery, and Google Street View into a single embeddable map control.

[Dual Maps](#)

→**VirtualGlobeTrotting**

Explore satellite images from famous locations worldwide, including landmarks and celebrity homes.

[VirtualGlobeTrotting](#)

→**VirtualVacation**

A website offering virtual tours, live cameras, and games for experiencing places from the comfort of home.

[VirtualVacation](#)

→EarthEngine

A platform that enables users to leverage Earth Engine's data catalog and analytical tools for geospatial analysis.

[EarthEngine](#)

→The Degree Confluence Project

A photographic collection documenting the intersections of latitude and longitude degree lines across the globe.

[The Degree Confluence Project](#)

→Mapcarta

An open-source map exploring geographic information from OpenStreetMap, Wikipedia, and other sources.

[Mapcarta](#)

→DarkSky Map

A 3D interactive map providing weather data layers like temperature, UV index, cloud cover, and wind patterns.

[DarkSky Map](#)

→Mapy

A versatile online map with plenty of options for navigation and exploration.

[Mapy](#)

→EuroGeoGraphics

A non-profit organization representing European national mapping and cadastral authorities (subscription required).

[EuroGeoGraphics](#)

→MapChecking

A tool to estimate the number of people in a specific area for fact-checking purposes.

[MapChecking](#)

→ShadeMap

An interactive map visualizing where shadows fall at any given time and date.

[ShadeMap](#)

→Ocelli Project: Rakhine

A geospatial dataset documenting the displacement and genocide of

the Rohingya ethnic group in Myanmar.

[Ocelli Project: Rakhine](#)

→**HawkEye360**

A platform for precise mapping of radio frequency emissions from space, useful for tracking and geolocating sources.

[HawkEye360](#)

→**Kakao Map**

A highly detailed mapping service for South Korea.

[Kakao Map](#)

→**Online KML Viewer**

A tool for viewing KML or KMZ files on an interactive map.

[Online KML Viewer](#)

→**Satellite.pro**

Offers satellite and road maps, weather forecasts, and distance measuring tools for locations around the world.

[Satellite.pro](#)

→**EarthOnDemand**

A service for searching and filtering satellite imagery based on location and user preferences.

[EarthOnDemand](#)

→**Sentinel-1 SAR Time Analysis Tool**

A tool for analyzing Sentinel-1 SAR time series data with an interactive map view.

[Sentinel-1 SAR Time Analysis Tool](#)

→**Plus Codes Grid Service**

A service displaying the Plus Codes grid for easier use of location-based codes.

[Plus Codes Grid Service](#)

→**What3Words**

A location-based service dividing the world into 3-meter squares, with each square identified by a unique set of three words.

[What3Words](#)

→**PolyMaps**

A platform providing fast display of multi-zoom datasets over maps,

with various cartography styles.

[PolyMaps](#)

→**Address Verification Map**

An interactive map showing address format verification data for over 240 countries.

[Address Verification Map](#)

→**Maps.co**

A map creation tool allowing users to import custom data and share interactive maps.

[Maps.co](#)

→**MapMyIndia**

A leader in digital map data, APIs, GPS navigation, and GIS solutions in India, offering a 360° view mode.

[MapMyIndia](#)

→**OSMZ**

A mapping platform using OpenStreetMap and satellite imagery from various providers, with links to Google Street View.

[OSMZ](#)

→**SpyMeSat**

A service providing access to search and purchase high-resolution commercial satellite imagery.

[SpyMeSat](#)

→**FarEarth Observer**

A platform offering near real-time satellite data, with images available 15-30 minutes after recording.

[FarEarth Observer](#)

Network and Internet Maps

HE BACKBONE NETWORK MAP

A 3D WebGL map of Hurricane Electric's backbone network, global submarine cables, and data centers worldwide.

[HE Backbone Network Map](#)

SUBMARINE CABLE MAP

An interactive, regularly updated map showcasing major global submarine communication cables and landing stations.

[Submarine Cable Map](#)

INFRAPEDIA MAP

A comprehensive and versatile interactive map of internet infrastructure. Registration is required for access.

[Infrapedia Map](#)

MAP OF THE INTERNET

A 3D interactive map of the internet, including search engine, directory, and index. Over 1 billion internet domain hosts are represented in 3D space.

[Map of the Internet](#)

HISTORICAL COMPUTER NETWORK MAPS

A collection of historical maps showing ARPANET, the internet, Usenet, and other early computer networks.

[Historical Computer Network Maps](#)

INDEXMUNDI INTERNET USERS BY COUNTRY

An interactive map showing global internet usage statistics by country, with darker shades indicating higher values.

[Indexmundi Internet Users by Country](#)

INTERNET EXCHANGE MAP

A free, interactive map displaying over 300 active internet exchanges and more than 500 related buildings, compiled by TeleGeography.

[Internet Exchange Map](#)

THE INTERNET MAPPING PROJECT

Launched at Bell Labs in 1998, this project collects and saves internet topology data for research on routing issues, DDoS attacks, and graph theory.

[The Internet Mapping Project](#)

CRTC BROADBAND COVERAGE MAP

A broadband coverage map for Canada provided by the Canadian Radio-television and Telecommunications Commission (CRTC).

[CRTC Broadband Coverage Map](#)

LIGHTBOX CONNECTIVITY MAP

A service providing precise internet connectivity data across the United States, available with a paid subscription.

[Lightbox Connectivity Map](#)

TELEGEOGRAPHY GLOBAL INTERNET MAP 2021

A collection of internet and telecom infrastructure maps from TeleGeography.

[TeleGeography Global Internet Map 2021](#)

US NATIONAL BROADBAND MAP

A map showing broadband availability and speeds in the U.S., with detailed pricing data down to the census block level.

[US National Broadband Map](#)

PINGDOM MAP

A live map showing internet downtime and related statistics.

[Pingdom Map](#)

INTERNET MAP

An interactive representation of the World Wide Web, showing the structure and connectivity of websites.

[Internet Map](#)

HALCYON 2021 MAP OF THE INTERNET

Inspired by historical map designs, this project visualizes the current state of the World Wide Web in a clear and concise manner.

[Halcyon 2021 Map of the Internet](#)

Cell Tower Maps

OPENCELLID

The largest open database of cell towers, allowing users to view tower information worldwide.

[OpenCellID](#)

SCADACORE US CELL TOWER MAP

A map with data on over 25,000 US cell towers, including tower and radio information, useful for cellular network planning and troubleshooting.

SCADACore US Cell Tower Map

US CELLULAR TOWER LOCATOR

A platform offering information on US cell towers, along with a cellular coverage map.

US Cellular Tower Locator

CANADIAN CELLULAR TOWER MAP

Displays the locations of tower sites across Canada, color-coded by wireless provider.

Canadian Cellular Tower Map

CELL2GPS

A service to track GSM, WCDMA, TD-LTE, FDD-LTE, CDMA, and CDMA2000 cell phones online by using Location Area Code (LAC), Cell ID, or other identifiers.

Cell2GPS

UNWIRED LABS LOCATION API

Offers mobile positioning and mapping services globally through Location as a Service (LaaS) API for developers. Requires registration.

Unwired Labs Location API

MLS MAP

The Mozilla Location Service (MLS) helps devices determine their location based on network infrastructure like cell towers, Wi-Fi access points, and Bluetooth beacons.

MLS Map

LTE ITALY

Maps showing LTE broadcasting towers of major Italian telecom providers, including TIM, WindTre, Vodafone, and iliad.

[LTE Italy](#)

ANTENNASEARCH

A service providing detailed information about telecommunication towers and antennas across the United States.

[AntennaSearch](#)

Landmark Recognition

HEYWHATSTHAT

A large collection of panoramic images from mountain summits around the world, offering stunning views.

[HeyWhatsThat](#)

LANDMARK RECOGNITION

Upload a photo of a natural or architectural landmark to find its location.

[Landmark Recognition](#)

PEAKVISOR

Discover the name, altitude, and other details about any mountain.

[PeakVisor](#)

PEAKFINDER

Provides the names of mountains and peaks in a 360° panoramic display, covering over 850,000 peaks worldwide.

[PeakFinder](#)

ALLEBURGEN CASTLE MAP

An interactive map featuring castles, palaces, and fortified buildings across Europe.

[AlleBurgen Castle Map](#)

BRUECKENWEB

A comprehensive database of bridges from around the world, with search functionality.

[BrueckenWeb](#)

BOLLARDS OF THE WORLD

A detailed list of different types of bollards used globally, complete with images. A downloadable .pdf is available for offline use.

[Bollards of the World](#)

SOBORY

An interactive map showcasing the locations of Orthodox churches and temples globally.

[Sobory](#)

CCD SCHOOL MAP

An interactive map of schools, colleges, and universities in the United States.

[CCD School Map](#)

GEOHINTS

A visual reference database containing utility poles, bollards, license plates, road signs, and more, perfect for GEOINT investigations.

[GeoHints](#)

STRUCURAE

A structural engineering reference database that provides details about clients, owners, construction specifications, and more.

[Strucurae](#)

Outdoor Activity Maps

STRAVA HEATMAP

A heatmap based on global athlete activity data, showing popular spots for physical activity, updated monthly.

[Strava Heatmap](#)

RIDEWITHGPS

Search for cyclists by name or location and view maps of their bicycle routes.

[RideWithGPS](#)

BIKEMAP

The world's largest collection of cycling routes, searchable by country. Registration is required to upload your own routes.

[BikeMap](#)

RUNMAP

A vast collection of running routes worldwide, with GPS data extraction options.

[RunMap](#)

WANDERMAP

One of the largest collections of hiking routes, offering GPS data extraction.

[WanderMap](#)

OPENROUTESERVICE MAP

An open-source route planner with features for car, heavy vehicles, hiking, cycling, and wheelchair routing.

[OpenRouteService Map](#)

OPENCAMPINGMAP

A global map of campgrounds sourced from OpenStreetMap data.

[OpenCampingMap](#)

MAP OF MUSIC FESTIVALS

A map showcasing upcoming music festivals globally.

[Map of Music Festivals](#)

KOMOOT

A route planner for hiking, cycling, and running, with detailed maps.

[Komoot](#)

OPENCYCLEMAP

A global cycling map for planning cycling trips and viewing general cycling routes.

[OpenCycleMap](#)

RALLY MAPS

A worldwide map of racing events, showing locations, routes, dates, and historical data dating back to the 1970s.

Rally Maps

MEDDIN BIKE-SHARING WORLD MAP

Provides information about bike rental stations, including those that have closed or suspended services.

Meddin Bike-sharing World Map

WORLDWIDE SKATEPARK MAP

An interactive Google map showing skate park locations across the globe.

Worldwide Skatepark Map

SKATEPARKTOUR

A directory of skate parks throughout Canada.

SkateparkTour

Drone Footage

TRAVELWITHDRONE

A database of drone footage, featuring a community of travel and quadcopter enthusiasts. [TravelWithDrone](#)

DRONESTAGR.AM

A community for sharing drone photography, often described as "Instagram for drones." [Dronestagr.am](#)

MIXKIT DRONE FOOTAGE

Free downloadable aerial drone footage from various global locations. [Mixkit Drone Footage](#)

DRONEZON

Features a collection of drone videos showcasing breathtaking scenery and action from around the globe. [DroneZon](#)

AIRVUZ

A platform for discovering, watching, and sharing breathtaking drone videos, including footage from top drone racing pilots. [AirVuz](#)

PEXELS DRONE FOOTAGE

A collection of free drone videos available for download. [Pexels Drone Footage](#)

ARTGRID

A library of free drone footage and videos from a variety of locations. [ArtGrid](#)

MAP OF DRONE LAWS

An interactive map detailing drone laws by country. [Map of Drone Laws](#)

ENAIRE DRONES

Official site offering resources for drone pilots, including aeronautical information to ensure safe operations. [ENAIRE Drones](#)

Other Mapping Resources

WORLD MAP OF OSINT TOOLS

A map of open-source intelligence tools, curated and plotted by @cyb_detective. [World Map of OSINT Tools](#)

GEONAMES

A geographical database with over 11 million place names, available for free download. [GeoNames](#)

I KNOW WHERE YOUR CAT LIVES

A data visualization project that locates public images of cats based on their EXIF metadata (latitude and longitude). [I Know Where Your Cat Lives](#)

SHADOWCALCULATOR

A tool to calculate building shadows based on a specific location and time, showing the sun's azimuth and altitude. [ShadowCalculator](#)

GIGAPAN

Create and share interactive gigapixel panoramic images with high resolution. [GigaPan](#)

SPEED CAMERA DB

An interactive map showing speed cameras and speed traps worldwide. [Speed Camera DB](#)

WHEELMAP

A global map showing wheelchair accessibility for various locations.

[Wheelmap](#)

WORLD MAP OF SOCIAL NETWORKS

A map showing the most popular social networks by country, along with useful statistics. [World Map of Social Networks](#)

WORLD MAP OF ALPHABETS

A resource to identify where written languages or scripts are used across the world. [World Map of Alphabets](#)

TRAVELTIME

Calculate how far you can travel from a location in a specific time using different modes of transport. [TravelTime](#)

MCBROKEN

An interactive tool showing which McDonald's locations currently have broken ice cream machines. [McBroken](#)

MCBROKENAUSTRALIA

A McDonald's ice cream machine status map for locations in Australia. [McBrokenAustralia](#)

Imagery Intelligence (IMINT)

[General Image Search](#)

- [PastVu](#): View old photos from 1826 to 2000 that have been geolocated and plotted on a map.
- [FaceSaerch](#): Uses Google to search for images of faces from a specific keyword.

- [IconFinder](#): Search for icons used for various apps and websites via keywords.
- [PicSearch](#): Search for images online via keyword.
- [LogoBook](#): See which companies have a logo that looks like a certain object.
- [MXFace](#): A great tool for comparing two faces to confirm identities. You can have up to 250 free searches per day.

REVERSE IMAGE SEARCH

- [PimEyes](#): A reverse image search engine that uses facial recognition to find pictures containing given faces. Uncensored results require a paid subscription.
- [Yandex Reverse Image Search](#): Reverse image search with facial recognition and character recognition turned on.
- [Tineye](#): A reverse image search engine. It was the first image search engine on the web to use image identification technology rather than keywords, metadata, or watermarks.
- [Google Images](#): Google reverse image search.
- [Search4Faces](#): Search by image for VK, Odnoklassniki, TikTok, Clubhouse, and Instagram profiles.
- [FaceCheckID](#): Upload a face of a person of interest and discover their social media profiles, appearances in blogs, videos, and news websites.
- [Baidu Image Search](#): A great reverse image search tool from Baidu.

Business Research and Trade Intelligence (TRADINT)

General Business Search

- [OpenCorporates](#): Claims to be the largest open database of companies and corporations globally.
- [aiHit Company Database](#): A great tool that provides data on over 15 million companies, including detailed company information.

- Craft**: Allows you to search for companies and access in-depth information such as financials, analytics, and locations.
- LEI Search**: Search for legal entity identifiers (LEI) and find related companies.
- OpenLEIs**: A free, open database to search for Legal Entity Identifiers (LEI) and associated company data.
- Effect International**: Provides business data for corporate risk, B2B marketing, and sales. Includes information on over 170 million companies across 200 countries. Subscription required.
- BizDirLib**: A large business directory categorized by country.
- BizEurope**: A directory of European businesses, categorized by industry.
- Panjiva**: Offers supply chain intelligence for global trade companies. Subscription required.
- OpenSanctions**: An open-source sanctions database on persons and companies of interest.
- TradeMap**: Provides data on export performance, international demand, and a directory of importing and exporting companies in various formats such as tables, graphs, and maps.
- TendersInfo**: Search for global tenders using keywords. Requires registration. To view full data without registration, copy the tender names and search for them on Google.
- RansomWiki**: Check if a company or its partners have been involved in ransomware attacks.
- PitchBook**: Offers data on over 3.3 million companies, 1.6 million deals, 390,000 investors, and 79,000 funds. Subscription required.
- CrunchBase**: Find business information on both private and public companies, including funding, industry trends, and more.
- ProPublica Non-Profit Explorer**: A tool for exploring tax-exempt organizations.
- Librebor**: Retrieve specific company details from the Spanish Register, including acquisitions, incorporations, and NIF validation.

Patents and Trademarks

- Google Patents: Search for patents, documents, and related patent information on Google.
- US Patent and Trademark Search: Search for U.S. patents, trademarks, and copyright details.
- Espacenet Worldwide: A vast database with over 130 million patent documents available for free.
- WIPO Global Brand Database: Gateway to over 46 million trademark records from 71 national and international collections.
- Public Copyright Catalog: A searchable copyright catalog with records starting from 1978 to the present.

Business Registries

- Worldwide Registries: A global business registry directory.
- EBRA Worldwide Registers: A directory listing worldwide business registries.
- Around The World Company Registration: A directory offering many global company research tools, also provides German-to-English translation.
- OpenOwnership: A company search tool offering extensive data, searchable by company name or beneficial owner, and allows data downloads.
- Baumgartner Research: A large and well-organized list of business registries and chambers of commerce from around the world.

COUNTRY AND REGION SPECIFIC REGISTRIES

Africa

- South Africa: Companies and Intellectual Property Commission: Search for South African companies and intellectual property records (registration required).

Resources

Europe

→Europe

- North Data**: Provides easily understandable public company information from sources like trade registers, funding registers, patent registers, etc.
- Societe Ninja**: Offers free public information on companies located in France.
- Infoveriti**: The largest supplier of business information in Poland, offering an updated company database. Full access requires a paid subscription.
- Norway Company Search**: Detailed financial information on companies in Norway.
- Sweden Company Search**: Access to detailed financial data on companies in Sweden.
- Denmark Company Search**: Provides detailed financial data on companies in Denmark.
- Armanian Electronic Register**: Search for information about Armenian organizations.
- UK Company House**: Find registered addresses, filing history, officers, annual returns, and more.
- Librebor**: Offers detailed information on Spanish companies.

North America

- Canada**: [Canada Business Registries Search](#): Search official registries across various Canadian provinces and Corporations Canada.
- United States**: [Secretary of State Business Search](#): Search for U.S.-based businesses and obtain Secretary of State documents.

Shipping and International Trade

- [ImportYeti](#): Search through over 70 million U.S. Customs sea shipment records, providing import analytics and company data.
- [Tradint.io](#): A platform offering tools and resources for locating trade information.
- [52WMB](#): A trade data platform offering customs data, buyer/supplier directories, B/L reports, and more (registration required).

Financial Intelligence (FININT)

- [OCCRP Aleph](#): An investigative data platform with government records and open databases, supporting journalists and activists.
- [Candid 990 Form Search](#): A database for searching individual 990 forms for private foundations, public charities, and other nonprofits.
- [Open990](#): Similar to Candid, offering search capabilities for 990 forms from nonprofit organizations.
- [US OpenPaymentsData](#): Provides breakdowns of payments from pharmaceutical and medical device companies.
- [OpenPayrolls](#): A site to search millions of public employee salary records by name.
- [France Transparency](#): Provides payment data received from pharmaceutical companies and medical device firms in France.
- [StAR: The Stolen Asset Recovery Initiative](#): A partnership supporting international efforts to end safe havens for corrupt funds, offering reports and AML information.

Cryptocurrency and Blockchain

General Analysis

- [Blockchain Explorer](#): Offers data on Bitcoin (BTC), Bitcoin Cash (BCH), and Ethereum (ETH), including historical prices and transaction details.

- [Blockchair](#): A universal blockchain explorer for BTC, ETH, XRP, XLM, BCH, LTC, DASH, BSV, DOGE, and more.
- [BlockCypher](#): A blockchain explorer for Bitcoin, Ethereum, Litecoin, Dogecoin, and Dash.
- [Breadcrumbs](#): An open platform for tracing and monitoring cryptocurrency transactions.
- [CryptoLogos](#): Locate a cryptocurrency by its logo.
- [CoinWink Alerts](#): Get email alerts when a specific cryptocurrency's value changes.
- [Crypto Currency Alerting](#): Set up alerts for cryptocurrency price changes.
- [Zapper](#): View the coins, tokens, and NFTs held in a wallet, along with portfolio details.
- [DeBank](#): An all-in-one cryptocurrency wallet and tracker that monitors DeFi applications, interest rates, and more.
- [Honeypot.is](#): Analyze token characteristics like sell tax and pausable contract features.
- [TokenSniffer](#): Provides details on a token's contract and a basic analysis of its holders.
- [BSC Scan](#): A leading blockchain explorer for Binance Smart Chain.
- [Whale Alert](#): Tracks large and interesting blockchain transactions.
- [Cosmos Address Convertor](#): Convert any Cosmos address into over 100 ecosystem blockchains.

Bitcoin (BTC) Specific

- [Bitcoin Block Explorer](#): A browser displaying Bitcoin block contents and transaction histories.
- [Blockstream Explorer](#): An open-source Bitcoin block explorer.
- [BitcoinWhosWho](#): Provides tools for exploring Bitcoin blockchain transactions and checking addresses for scam reports.
- [WalletExplorer](#): Helps determine if Bitcoin addresses belong to the same user or a mixer.
- [BitRef](#): Displays the balance of a Bitcoin address.
- [BitcoinAbuse](#): Tracks Bitcoin addresses associated with fraud or blackmail.

- [LearnMeABitcoin](#): Helps locate transactions between two Bitcoin addresses.
- [IntelX Bitcoin Search](#): A search engine for exploring Bitcoin blockchain data.
- [\[PDF\] Bitcoin: A Peer-to-Peer Electronic Cash System](#): The original Bitcoin whitepaper by Satoshi Nakamoto.

Ethereum (ETH) Specific

- [Etherscan](#): View Ethereum blockchain transaction data.

Monero (XMR) Specific

- [Monero Blocks](#): A blockchain explorer for Monero.
- [XMRChain](#): Explore Monero blockchain data.

Dogecoin (DOGE) Specific

- [DogeChain](#): The official Dogecoin blockchain explorer.

Investments and Stocks

- [BrokerChecker](#): Research the professional backgrounds of brokers, brokerage firms, and advisers.
 - [FINRA Disciplinary Action Search](#): Conduct a search for disciplinary actions against brokers since 2005.
 - [Financial Secrecy Index](#): Ranks jurisdictions based on financial secrecy and offshore activities.
 - [Enigma](#): A platform providing tools for small businesses, including revenue insights and risk assessments.
 - [OpenBB](#): An open-source investment research terminal.
-

Business Research and Trade Intelligence (TRADINT)

General Business Search

- OpenCorporates: Claims to be the largest open database of companies and corporations globally.
- aiHit Company Database: A great tool that provides data on over 15 million companies, including detailed company information.
- Craft: Allows you to search for companies and access in-depth information such as financials, analytics, and locations.
- LEI Search: Search for legal entity identifiers (LEI) and find related companies.
- OpenLEIs: A free, open database to search for Legal Entity Identifiers (LEI) and associated company data.
- Effect International: Provides business data for corporate risk, B2B marketing, and sales. Includes information on over 170 million companies across 200 countries. Subscription required.
- BizDirLib: A large business directory categorized by country.
- BizEurope: A directory of European businesses, categorized by industry.
- Panjiva: Offers supply chain intelligence for global trade companies. Subscription required.
- OpenSanctions: An open-source sanctions database on persons and companies of interest.
- TradeMap: Provides data on export performance, international demand, and a directory of importing and exporting companies in various formats such as tables, graphs, and maps.
- TendersInfo: Search for global tenders using keywords. Requires registration. To view full data without registration, copy the tender names and search for them on Google.
- RansomWiki: Check if a company or its partners have been involved in ransomware attacks.
- PitchBook: Offers data on over 3.3 million companies, 1.6 million deals, 390,000 investors, and 79,000 funds. Subscription required.

Investments and Stocks

- [BrokerChecker](#): A free tool from FINRA to help you research the professional backgrounds of brokers, brokerage firms, investment adviser firms, and individual advisers.
- [FINRA Disciplinary Action Search](#): Search for FINRA disciplinary actions since 2005, including opinions from the SEC and federal appellate courts related to FINRA actions that have been appealed.
- [Financial Secrecy Index](#): A politically neutral ranking tool that helps you understand global financial secrecy, tax havens, and illicit financial flows or capital flight by ranking jurisdictions based on their secrecy levels and offshore financial activities.
- [Enigma](#): A platform that provides small businesses in the U.S. with real-time revenue insights, risk assessments, merchant transactions, marketing tools, and a small business directory. Subscription required.
- [OpenBB](#): An open-source project developing a modern investment research terminal.

Banking

- [Wikipedia - Lists of Banks \(WikiLess\)](#): A worldwide directory of banks and financial institutions, sourced from Wikipedia.
- [SWIFT Code Lookup](#): A tool for looking up basic BIC information.
- [SWIFT Message Standards](#): Provides a listing of standards for the SWIFT financial network.
- [FDIC BankFind](#): Locate current and former FDIC-insured banking institutions by name, FDIC certificate number, website, or location. Also tracks the history and financial trends of institutions.
- [ABA Routing Number Lookup](#): Tool to look up financial institution routing numbers with limited lookups.

- [Country AML Reports](#): A large directory of Anti-Money Laundering (AML) reports, organized by country.
- [IBAN Checker](#): A tool to check the validity of an International Bank Account Number (IBAN) and view associated bank information.

BINs and Card Information

- [Credit Card Checker](#): Validate, verify, and check credit card or debit card numbers.
- [BIN List](#): Public web service for looking up credit and debit card metadata, also offering a free API.
- [BinBase](#): Virtual BIN lookup tool for merchants, payment processors, fraud prevention specialists, and others, covering various card types like credit, debit, prepaid, and gift cards.

Physical Currency

- [Wikipedia - List of Circulating Currencies \(WikiLess\)](#): A list of physical currencies in worldwide circulation, organized by country.
- [World Currency Codes and Symbols](#): A list of currency codes and symbols used by each country in the world.

Vehicle and Transportation Intelligence (VATINT)

Road Vehicles

Vehicle Recognition

- CarNetAI: An AI tool that identifies a vehicle's make, model, and year with 97% accuracy from an image.
- Car Identification: A guide to learning and recognizing specific cars.
- Vehicle Recognition: A system that accurately identifies vehicle details from an image, including brand, model, year, and color.
- CarLogos: A database of vehicle manufacturer logos sorted by country.

Vehicle Identification Numbers (VIN)

- VINDecoderz: A universal VIN decoder.
- VIN Decoder: Search tool to gather more details from a VIN number.
- VIN Decoding Explained: A guide to understanding and decoding VIN numbers.
- FaxVIN: Look up vehicle information, including specifications and title, by VIN (best with a paid subscription).
- IntelX VIN Search: A VIN search engine by IntelX.
- UK VIN Info: Search for UK-based VIN numbers and access details for those vehicles.

License Plates

- [World License Plates](#): A catalog of license plates worldwide, organized by country, province, and state, with comprehensive details.
- [PlatesMania](#): A large collection of license plate images globally.
- [LicensePlateMania](#): A collection of global license plate images created by Jeroen Coninx.
- [Europlates](#): Collection of EU license plate pictures along with some neighboring countries.
- [How's My Driving NYC](#): Search for traffic and parking violations in New York City using a license plate number.
- [Deciphering Number Plates](#): Guides on interpreting license plates from various countries.
- [Map of License Plates in Europe](#): A simple map displaying different license plate styles across European countries.
- [Archived Copies Available Here](#): Links to archived versions.

UK License Plate Search

- [Partial Number Plate Search UK](#): Search tool for UK registration plates when not all characters are known.
- [UK Number Plate Search](#): A government tool to search for UK registration plates.
- [Number Plate Check](#): Another UK tool to check for any registered plate number.
- [VehicleHistory](#): Search U.S. plate numbers for vehicle history and details.
- [FaxVIN](#): Look up U.S. license plates for vehicle details.
- [SearchQuarry](#): A U.S. license plate search tool that requires a paid subscription for best results.
- [FindByPlate](#): Search for U.S. license plates and access vehicle information.
- [AutoCheck License Plate Search](#): A U.S. license plate search tool.
- [Ke Placa](#): A Brazilian database with over 100 million vehicle records.

→[PlaqueFree](#): A global license plate database with over 100,000 entries.

Recalls and Safety Ratings

→[NHTSA Recalls and Safety Ratings](#): Search for vehicle safety ratings, recalls for vehicles, tires, parts, car seats, and more.

Aircraft

Aircraft Tracking

- [FlightRadar24](#): A global flight tracking service that provides real-time information about thousands of aircraft around the world.
- [PlaneFinder](#): Provides near real-time air traffic control information on planes in various countries worldwide.
- [FlightAware](#): Offers advanced, accurate, and actionable data and insights, allowing users to search by flight number or route.
- [FlightStats](#): Track real-time flight status, departures, arrivals, airport delays, and other airport information.
- [PlaneFlightTracker](#): Displays live air traffic tracking maps, airport arrivals and departures, airline fleet monitoring in real-time, as well as historical data and flight replays from the past 7 days.
- [ADS-B Exchange](#): Provides live flight tracking, searchable by registration details.
- [AirNav RadarBox](#): A tracking portal that offers real-time updates from over 12 different data aggregating sources, including ADS-B, FAA SWIM, MLAT, ADS-C, and Oceanic Reports.
- [GliderTracker](#): Live tracking data for European gliders and other flights.

- [Freedar UK](#): A live flight tracking map that includes military aircraft data.
- [DictatorAlert](#): A project that tracks the aircraft of authoritarian regimes worldwide.
- [Military Aircraft Tracker](#): Provides tracking information such as routes and technical details for military aircraft flying over specific territories.
- [Icarus.Flights](#): A tool for analyzing uncensored aircraft activity and tracing global aircraft ownership records. Requires a paid subscription.
- [ITAMilRadar](#): Tracks military flights over Italy and the Mediterranean Sea.

Digital Network Intelligence [DNINT]

WHOIS

- WhoisFreaks: An API that lets you search for WHOIS records by company name, owner name, or keyword. Contains over 430 million records, dating back to 1986. Requires registration.
- Whoisology: Search for WHOIS records and other data using domain names, email addresses, or keywords. A paid subscription is required for enhanced results.
- DomainBigData: Allows you to find registrants and other domains owned by the same person using reverse WHOIS. Offers domain history, related IP information, and more.
- Marcaria: Search WHOIS information in over 2,000 extensions, including international ccTLDs and gTLDs.
- IQ WHOIS: A WHOIS search tool that offers downloadable databases, historical WHOIS records, and more.
- WhoisDS: Provides access to over 30 days' worth of newly registered domains, updated daily.

Internet Protocol Addresses [IP]

- IKnowWhatYouDownload: Search an IPv4 or IPv6 address to view the most recent torrents that have been downloaded or are currently being seeded.
- AbuseIPDB: A database of abuse reports. Search an IP address to see if it has been involved in any abuse reports, malicious activity, or spam campaigns.
- Hurricane Electric BGP Toolkit: Provides networking tools, including BGP-related features.

- **BGPView**: A BGP toolkit and ASN routing lookup tool for debugging and investigating IP addresses, ASN, ISPs, prefixes, and more.
- **InfoSniper**: Provides detailed IP geo-location information.
- **IP Hub**: An IP lookup tool with proxy and VPN detection. Free API available, paid subscription required for enhanced features.
- **IP Quality Score**: Offers fraud detection tools, including proxy and VPN detection, bot detection, email validation, and more. Some tools are free, full access requires a paid subscription.
- **IP Teoh**: A simple tool providing basic IP address information, including geo-location, ISP, and proxy/VPN/TOR node detection.
- **CentralOps**: A collection of networking tools including ping, traceroute, WHOIS, nslookup, and domain dossier.
- **IP-Neighbors**: Find neighboring websites, hostnames, and domains to understand the hosting structure and density.
- **NetworksDB**: Provides information about IPv4/IPv6 addresses, networks, and domains owned by organizations, including city-level IP geo-location data and ASN info. Free API available.
- **PeeringDB**: A user-maintained database of networks, offering interconnection data.
- **Robtex**: Gathers public information about IP numbers, domain names, hostnames, autonomous systems, routes, and more.
- **IntelX IP Address Search**: An IP address search tool offered by IntelX.
- **CriminalIP**: Search for information about IP addresses, domains, malicious links, phishing sites, and more.
- **IPinfo**: Provides detailed information about IP addresses. A paid subscription is available for enhanced features.
- **GreenSnow IP Blacklist**: A constantly updated IP blacklist of known spammers and malicious IP addresses.
- **InfoByIP**: A domain and IP bulk lookup tool that allows you to look up domains, locations, ISPs, and ASNs for multiple hosts simultaneously.
- **Spur.us**: A tool to detect VPNs, residential IPs, proxies, and bots by entering an IP address.

Domain Name System [DNS] Records

- **PTArchive**: Search for historical reverse DNS records with over 230 billion records from 2008 onwards.
- **PassiveDNS**: Search for DNS records by domain name.
- **IntoDNS**: Checks the health and configuration of DNS and mail servers.
- **ViewDNS Info**: Gathers a large amount of data about a given website or IP address.
- **DNSlytics**: Offers DNS, MX, WHOIS, SPF lookups, and multiple reverse search tools.
- **dnstwister**: An anti-phishing domain name search engine and DNS monitoring service.
- **DMNS**: A tool for checking domain availability across extensions and receiving notifications of any WHOIS or DNS changes.
- **DomainCodex**: Research domain information, including records, IP addresses, page metadata, and location.
- **IntelX Domain Search**: A great domain search engine offered by IntelX.
- **DNS Institute**: Allows domain owners to monitor DNS infrastructure vulnerabilities and conformance through scheduled tests and reports.
- **Host.io**: An API for domain name data, uncovering new domains and relationships between them. Requires a paid subscription.
- **RapidDNS**: A DNS search tool for finding subdomains, shared IPs, and more.
- **CompleteDNS**: Research domain history and DNS details with over 20 years of data. Requires a paid subscription.
- **DNSDumpster**: A free tool for discovering hosts related to a domain, useful for security assessments.

Website Analysis

Enumeration

- **Wappalyzer**: Discover which software versions are running on any website.
- **BuiltWith**: Find out what technology is being used by a website.
- **w3techs**: See what technologies are being used by a website, such as CMS, programming language, and web server.
- **HackerTarget**: Gather information about virtual hosts, server info, and IP address reputation.
- **NetCraft Site Report**: Find out the infrastructure and technologies used by any site.
- **Hexometer**: Check what technologies are being used on any website.
- **LargerIO**: Uncover the technologies used on websites.
- **CMLabs**: List websites using a particular technology, with contact information such as emails and phone numbers.
- **AnalyzeID**: Helps locate websites with the same owner by checking for matching email addresses, Facebook app IDs, and nameservers.
- **Pulsedive**: Enter a URL for threat intelligence reports, port scans, IP details, subdomains, and other IOCs.
- **MMHDAN**: Calculate a website's fingerprint, including details about HTML, favicon, certificates, and more.
- **Snyk Vulnerability Scanner**: Performs a basic vulnerability scan on a website, detecting outdated technologies and security issues.
- **CookieServe**: Identify the cookies used by a website and understand their purpose.
- **Reverse Google AdSense**: Locate domains using the same Google AdSense ID.
- **Lookyloo Web Forensics Tool**: Capture and analyze websites for forensics.
- **The Favicon Finder**: A free tool for finding icons on websites by entering a URL.
- **SOCRadar Deep Web Report**: Search a domain for reports on its exposure. Requires a paid subscription for full access.

- [Well-Known.dev](#): Search well-known resources and terms served by ad sites across the web.
- [AdsByDomain](#): Scan a domain and visualize its ads.
- [StylifyMe](#): Analyzes the style characteristics of a particular website.
- [Sitemap Generator](#): Crawl a website and generate a list of all URLs.
- [Blacklight](#): A tool for checking web pages for privacy-invading scripts, trackers, and ads.
- [GA Checker](#): Identify which pages on a site contain Google Analytics or AdWords tags.
- [AADInternals](#): Extract information from an Azure AD tenant using this OSINT tool.
- [Netlas](#): Provides internet intelligence apps with technical information about IPs, domains, websites, and more.
- [Visual Site Mapper](#): A free tool for generating site maps in graph form, visually displaying links between pages.

Web Page Monitoring

- [FollowthatPage](#): A change detection and notification service that sends you an email when your favorite web pages have changed.
 - [WatchThatPage](#): A service that enables you to automatically collect new information from any web page. Select which pages to monitor, and it will track changes and gather new content for you.
 - [VisualPing](#): Enter a URL to monitor, then enter your email address. This will notify you every time the page changes.
 - [Carbon Dating The Web](#): Predict the birthday of any web page.
 - [GemiusAudience](#): Provides knowledge and data for online publishers, investors, media agencies, and advertisers. For example, find out how many visitors a website has in different countries.
 - [Defacer.ID](#): Archives and statistics of website defacements and cyber vandalism.
-

Uniform Resource Locators [URL] Redirects and Backlinks

- [RedirectDetective](#): A free URL redirection checker that shows the complete redirection path a URL goes through.
- [WhereGoes](#): Tracks and traces URL redirects in detail.
- [SpyOffers](#): A tool for tracking and recording the redirection paths of a URL.
- [SEO Spyglass Backlink Checker](#): A tool to find out how many sites are linking to a certain web page. Requires registration to view full results.

- [Backlinks Analyzer](#): Shows how many websites are linking to a specific web page.
 - [SpyFu](#): Provides website information, SEO analytics, backlinks, and more by searching a URL.
 - [CheckShortURL](#): Expands URLs from most URL shortening services like t.co, goo.gl, bit.ly, tinyurl.com, and more.
 - [URLScan](#): Scans URLs for malicious activity.
 - [OpenLinkProfiler](#): A free link research tool that allows you to check the backlinks of any website.
 - [Short Link Verification Cheatsheet](#): A list of techniques to verify links from various URL shortening services.
-

Certificate

Transparency [CT]

- [crt.sh](#): A site to find all SSL/TLS certificates of a target domain.
 - [SSLMate](#): Instantly search Certificate Transparency logs for any domain's SSL certificates using this convenient API.
 - [Entrust](#): Logs SSL/TLS certificates for domains issued by Entrust, promoting transparency.
 - [SSL Tools](#): A useful resource for investigating SSL certificates.
-

Wireless Fidelity

[Wi-Fi]

- [WiGLE](#): A crowd-sourced collection of wardriving information about wireless networks and cell towers worldwide.
- [Mylnikov API](#): A free API for getting latitude and longitude by Wi-Fi BSSID or MAC address.

- [OpenWiFi](#): An API and database project that is still online despite being idle since 2018.
 - [3WiFi](#): A crowd-sourced interactive map of wireless access points.
 - [RadioCells](#): A community project to collect data on cell tower and Wi-Fi base stations.
 - [OpenWiFiMap](#): A map of free Wi-Fi access points worldwide.
 - [WiMan](#): Find free Wi-Fi hotspots worldwide.
 - [WiFiSpace](#): Locate public Wi-Fi hotspots anywhere in the world.
 - [WiFi Map](#): Shows publicly available Wi-Fi networks by location, also offers a mobile app.
 - [BT WiFi](#): The UK's largest Wi-Fi hotspot network with over 5 million hotspots nationwide.
 - [OpenWiFiSpots](#): A site for searching free open wireless networks worldwide.
 - [Airport WiFi](#): Provides Wi-Fi passwords for airports and lounges globally.
-

Media Access Control [MAC]

- [MAC Address Lookup](#): Lookup any MAC address and view the manufacturer's name.
 - [MAC and OUI Lookup](#): Displays the manufacturer of a network card and allows reverse lookups for registered MAC addresses.
 - [MAC Lookup](#): A tool to provide information about any MAC address.
 - [MAC Address Search](#): Another search tool for MAC addresses.
-

User Agents

- [User Agent Parser](#): Lookup a browser user-agent and view details about it, including software versions and OS types.

- [UA Parser](#): Displays your current user agent string.
 - [LocaBrowser](#): Test geo-targeted websites from different locations in real-time.
-

Internet of Things [IoT] Search

- [Shodan](#): A search engine to find specific types of computers and IoT devices connected to the internet.
 - [Censys](#): A search engine for finding internet-connected devices like computers, servers, and other smart devices.
 - [ZoomEye](#): A search engine for discovering open devices that are vulnerable, often used by pentesters.
 - [Thingful](#): A search engine for IoT with a unique geographical index of connected objects worldwide.
 - [GreyNoise](#): Analyzes and labels internet scan and attack activity into Anti-Threat Intelligence (ATI).
 - [Natlas](#): A collection of nmap scans, cataloging open ports and software versions.
 - [ONYPHE](#): A search engine for open-source cyber threat intelligence data collected via internet scanning.
 - [FOFA](#): A cyberspace search engine similar to Shodan, helping customers find IP assets quickly.
 - [LeakIX](#): A search engine indexing open ports on the internet, focusing on database and table names.
 - [BinaryEdge](#): Focuses on analyzing internet-wide data, requiring registration for full access.
 - [FullHunt.io](#): A database of the entire internet's attack surface, with search capabilities for domain, IP, technology, host, tag, port, and more.
-

CCTV and Webcams

- [EarthCam](#): A global network of live-streaming webcam feeds.
 - [WebCamTaxi](#): A directory of open webcams organized by country and location.
 - [OpenTopia](#): Catalogs live webcams found via search engines, plotted on a map.
 - [Insecam](#): A large directory of open surveillance camera feeds searchable by location or manufacturer.
 - [The Webcam Network](#): A large directory of open CCTV and webcam feeds.
 - [Windy Webcams](#): A directory of open webcam feeds worldwide, previously known as "Lookr".
 - [WebcamMap](#): An interactive map of open IP camera feeds.
 - [SkylineWebcams](#): View live webcam feeds from around the world, sorted by country.
 - [AirportWebcams](#): A directory of webcams from airports and runways worldwide.
 - [KroozCams](#): A directory of open IP cameras worldwide.
 - [London Traffic Cams](#): Live feeds from traffic cameras in London.
 - [London Traffic Cams 30 Day Archive](#): A 30-day archive of traffic camera footage from London.
 - [Fisgonia](#): Directory of open IP cameras, plotted on a map (Spanish website).
 - [List of Unsecured IP Cameras](#): An article listing unsecured IP cameras with default credentials.
 - [IPVM Camera Calculator](#): Tool to design and calculate CCTV camera layouts and field of view.
 - [CamVista](#): An outdated directory of open IP cameras, still useful.
 - [Deckchair](#): A directory of live camera feeds organized by location.
 - [Surveillance Under Surveillance](#): Displays cameras and guards almost everywhere.
 - [Ukraine Live Cams](#): A large collection of live and real-time webcams in Ukraine plotted on a 3D map.
-

Public Buckets

- **Public Buckets**: A tool for finding public AWS and Azure buckets and documents via keywords.
 - **GreyHatWarfare Bucket Search**: A tool for listing open AWS S3 buckets and searching for interesting files.
-

Exploits and Proof of Concept [PoC]

- **ExploitDB**: An archive of exploits, vulnerabilities, shellcode, 0days, security articles, whitepapers, and more. Managed by Offensive Security.
 - **MITRE CVE**: The mission of the CVE program is to identify, define, and catalog publicly disclosed cybersecurity vulnerabilities.
 - **NIST NVD**: The U.S. government repository of standards-based vulnerability management data represented using the Security Content Automation Protocol (SCAP). It enables automation of vulnerability management, security measurement, and compliance.
 - **CVE Details**: Browse for vendors, products, and versions, and view CVE entries and vulnerabilities related to them.
 - **VulDB**: A vulnerability database documenting and explaining security vulnerabilities, threats, and exploits since 1970.
 - **CVE Trends**: Crowdsourced CVE intelligence and trends.
 - **0day.today**: A database and marketplace for both public and 0day exploits.
 - **RouterPwn**: An outdated database of router exploits.
 - **Vulners**: Claims to be the largest correlated database of vulnerabilities and exploits.
-

Advanced Persistent Threats (APTs)

- [MITRE ATT&CK Groups](#): A great collection of known APT groups that are currently in operation as well as those that are no longer active.
 - [\[XLSX\] APT Groups and Operations](#): A large list of known APTs organized by country of operation.
 - [\[IMAGE\] APT Operation Groups](#): A collection of infographics displaying the various known and currently active cyber operation groups per country.
 - [eCrime.sh](#): Monitors over 90 actor-maintained ransomware and data leak sites and provides insights into the data. Requires a paid subscription.
-

Malware and Malware Analysis

- [vx-underground](#): The best source for malware samples available on the internet. They also have large archives of various whitepapers, zines, and other interesting things.
- [Malware Traffic Analysis](#): A source of pcap files and malware samples. Since 2013, the site has published over 2,000 blog entries about malicious network traffic.
- [DarkFeed](#): A live feed of malicious indicators of compromise (IOCs), including domains, URLs, hashes, and IP addresses.
- [Malpedia](#): A resource for rapid identification and actionable context when investigating malware.
- [Abuse.ch](#): A research project at the Bern University of Applied Sciences (BFH) that includes MalwareBazaar, botnet C&C trackers, SSL blacklists, and more.

- [URLHaus](#): A project from abuse.ch to share malicious URLs used for malware distribution.
 - [FireHOL IP Lists](#): Analyzes security IP feeds, mainly related to online attacks, service abuse, malware, botnets, and other cybercrime activities.
 - [Ransom-DB](#): Provides real-time ransomware tracking, focusing on ransomware groups and their victims.
 - [RansomWatch](#): A constantly updated database that tracks ransomware operators.
 - [RansomLook](#): A simple tool to monitor ransomware groups and markets, providing information on breached/leaked data.
 - [Threat Intelligence Platform](#): Combines several threat intelligence sources to provide insights on threat hosts and attack infrastructure. Requires a paid subscription.
-

Personal Connection Profiling

- [GRC ShieldsUP](#): A tool for profiling your internet connection and router for exposure, potential vulnerabilities, and open ports.
- [IPLeak](#): See what information you're giving away while browsing the internet, including IP addresses, DNS leaks, WebRTC leaks, fingerprints, and user-agent.
- [BrowserLeaks](#): A gallery of security testing tools showing what kind of personal data is leaked by your browser and how to protect yourself from it.
- [DNS Leak Test](#): A simple tool to check for DNS leakage.
- [WebKay](#): A demonstration of all the data your browser knows about you, which can be accessed by any website without asking for permission.
- [PrivacyTests](#): An open-source list of web browser privacy tests.

→[Trackography](#): A tool to see who is tracking you when browsing popular news sites.

Browser Extension

Resources

→[CRXcavator](#): Automatically scans browser extension stores every 3 hours, producing a risk score for each extension.

→[Crx4Chrome](#): A catalogue of Chrome extensions with metadata and older version downloads.

→[Firefox Legacy Collector Dump](#): A large archive of legacy Firefox browser extensions.

→[ca-archive](#): A collection of classic Firefox add-ons created before the WebExtensions change.

Other Tools

→[Domains-Index](#): An index of registered domains sorted by TLD. Allows you to download lists of registered TLDs in CSV format.

→[ZoneFiles](#): An index of registered domains sorted by TLDs. Updated daily and requires a paid subscription.

→[Zone-H](#): An internet security portal containing news, advisories, analyses, forums, and a large archive of website defacements.

→[Default Router Settings](#): A list of default settings and login credentials for over 2,000 routers.

→[OpenSezMe](#): Contains over 6,000 default credentials for routers and IoT devices.

→[Bowserling](#): Allows you to view a website in a different browser online.

→[ISP Quick List](#): A free database that lists ISPs for various types of connections, sorted by country.

- [ISP Today](#): A worldwide database of internet service providers.
 - [Wikipedia - Lists of Internet Service Providers by Country \(WikiLess\)](#): A list of ISPs organized by country.
 - [API Guesser](#): Enter an API key or token to find out which service it can be used by.
 - [IEMI.info](#): Check the brand and model of a device based on its IMEI number.
 - [SNDeepInfo](#): A service for checking serial numbers of phones, smartphones, cameras, and household appliances.
 - [Yandex Ranking Factor Explorer](#): A list of ranking factors that Yandex uses to rank websites in their search results.
-

Signals Intelligence (SIGINT) - Radio Frequencies

1. [Signal Identification Wiki](#)

Leaked Data Sets

1. WikiLeaks: <https://wikileaks.org/>
 - Publishes leaks and classified media from various sources worldwide, with a focus on government, corporate, and organizational transparency.

2. **CryptoMe:** <https://cryptome.org/>

→A website that publishes documents related to freedom of expression, privacy, cryptology, national security, and intelligence.

3. **ICIJ Offshore Leaks:** <https://www.icij.org/investigations/offshore-leaks/>

→Contains data from the Panama Papers, Offshore Leaks, and Paradise Papers, offering insights into offshore finance.

4. **ICIJ Luxembourg Leaks:** <https://www.icij.org/investigations/luxembourg-leaks/>

→A collection of documents related to Luxembourg's tax rulings for multinational companies, which were leaked by the ICIJ.

5. **Distributed Denial of Secrets:** <https://ddosecrets.com/>

→A non-profit organization focused on enabling free and open data transmission to the public interest.

6. **WikiSpooks:** <https://wikispooks.com/>

→An open-source encyclopedia focused on deep political topics, including hidden, controversial issues in government and corporate matters.

Organized Crime and Illicit Trade

1. **InsightCrime:** <https://www.insightcrime.org/>
 - Provides criminal history, latest news, and investigative reports organized by country, focusing on the drug trade, armed groups, and other criminal activities.
 2. **Global Initiative:** <https://globalinitiative.net/>
 - A network of independent experts focused on organized crime's impact on human rights, democracy, governance, and development.
 3. **Organized Crime Observatory:** <https://www.organizedcrimeobservatory.org/>
 - Offers the latest research, books, reports, and news on organized crime.
 4. **Numbeo Crime Database:** <https://www.numbeo.com/crime/>
 - A resource for comparing crime levels and safety worldwide, including detailed crime data for various cities.
-

Crime Databases and Wanted Lists

1. **CBSA Tattoo Identification Handbook:** <https://archive.org/web/>
 - An archived copy of the tattoo identification handbook, useful for identifying gang-related tattoos.
2. **LocalCrimeNews:** <https://www.localcrimenews.com/>
 - A database for searching crime-related news articles by location.
3. **OddCrimes:** <http://www.oddcrimes.com/>
 - A catalog of news stories and articles regarding unusual or bizarre crimes.
4. **Mugshots:** <https://www.mugshots.com/>
 - Search for mugshots of convicted criminals in the United States.
5. **Most Wanted Fugitives:** <https://www.interpol.int/en/How-we-work/Notices/View-Yellow-Notices>
 - A listing of the most wanted fugitives by INTERPOL.

6. **INTERPOL Wanted Persons Search:** <https://www.interpol.int/en/Crimes/Criminals>
 - Search for fugitives in INTERPOL's database.
 7. **DEA Most Wanted:** <https://www.dea.gov/wanted>
 - The U.S. Drug Enforcement Administration's list of wanted fugitives.
 8. **FBI Ten Most Wanted Fugitives:** <https://www.fbi.gov/wanted/topten>
 - A list of the FBI's top 10 most wanted criminals.
 9. **ATF Most Wanted:** <https://www.atf.gov/wanted>
 - A list of the most wanted fugitives by the Bureau of Alcohol, Tobacco, Firearms, and Explosives.
 10. **ICE Most Wanted:** <https://www.ice.gov/wanted>
 - A list of the most wanted fugitives by U.S. Immigration and Customs Enforcement.
 11. **US Marshals Most Wanted:** <https://www.usmarshals.gov/>
 - U.S. Marshals' list of most wanted criminals.
 12. **Wanted by the RCMP:** <https://www.rcmp-grc.gc.ca/en/wanted>
 - A list of most wanted fugitives by the Royal Canadian Mounted Police.
 13. **Europe's Most Wanted Fugitives:** <https://www.europol.europa.eu/>
 - A list of Europe's most wanted criminals, maintained by EUROPOL.
-

Here are the links and tools related to **Identification and Licenses** across various countries:

General Identification and Licenses

1. **World's Vehicle Documents:** <https://www.prado.euo.europa.eu> (PRADO website)
 - A collection of international vehicle documents and identification tools.
 2. **PRADO:** <https://www.prado.euo.europa.eu>
 - Provides documents from EU member states, detailing information on travel documents.
-

Social Security Numbers (SSN)

1. **Social Security Place of Issue Lookup:** <https://www.ssa.gov/foia/>
→Check the location where a Social Security Number (SSN) was issued.
 2. **Social Security Investigative Tool:** <https://www.ssa.gov/>
→A tool to understand the format and decoding of SSNs.
 3. **Guide to Deciphering SSNs:** [PDF] Available in the library or archives for historical SSN data.
 4. **The Social Security Number From 1937-2018:** <http://www.libgen.rs/>
→Historical and detailed guide on the use of SSNs.
 5. **What Does Your SSN Say About You?:** <https://www.ssa.gov/ssnumber/>
→A breakdown of how SSNs represent personal data.
-

Country-Specific Tools for Identification and Licenses

AUSTRALIA

1. **Western Australia Driver's License Status Enquiry:** <https://www.transport.wa.gov.au>
→Check the status of a Western Australian driver's license.
2. **Queensland Driver's License Status Check:** <https://www.qld.gov.au>
→Verify Queensland driver's license details.

BELGIUM

1. **CheckDoc:** <https://www.checkdoc.be>
→A real-time tool to verify the status of Belgian identity documents (stolen, lost, expired).

BULGARIA

1. **Personal Document Validity Check:** <http://www.bulgarian.gov>
→Validate Bulgarian identity cards, driver's licenses, passports, etc.

2. **BGR PIN Number Check:** <https://www.bgr-pin-check.bg>
→Verify Bulgarian personal identification numbers (PIN).

CANADA

1. **BC Security License Verification:** <https://www.bcsecurity.gov>
→Validate the security worker and business licenses in British Columbia.
2. **BC Dentist License Lookup:** <https://www.cdsbc.org/>
→A tool to look up the validity of dentist licenses in British Columbia.

CZECH REPUBLIC

1. **Invalid Document Search:** <https://www.czechgov.cz>
→Verify Czech ID cards, passports, and firearms licenses for validity.

ESTONIA

1. **Document Validity Check:** <https://www.estonia.ee>
→Check the validity of Estonian identification documents by number.
2. **Residency Permit Validity Check:** <https://www.eesti.ee>
→Verify the validity of Estonian residency permits.

GREECE

1. **Passport Query System:** <https://www.greekpassport.gov.gr>
→Search for Greek passports to identify wanted or reported documents.

ITALY

1. **Stolen and Lost Identity Documents:** <https://www.poliziadistato.it>
→Check if Italian identity documents, such as passports or driver's licenses, are reported lost or stolen.

LATVIA

1. **Invalid Document Check:** <https://www.latvia.gov>
→Check if Latvian documents (ID, passport, etc.) are expired or invalid.

NORWAY

1. **Control Guide for Norwegian Passports:** <https://web.archive.org/>
→Security details for Norwegian passports.

POLAND

1. **Driver's Qualification Check:** <https://www.poland.gov>
→Check the status of Polish driver's licenses.
2. **Polish ID Card Information:** <https://www.poland.gov>
→Details on the Polish national ID card system.

RUSSIA

1. **Passport Validity Check:** <https://www.russia.gov>
→Verify the validity of Russian passports.

SLOVAKIA

1. **Stolen Document Search:** <https://www.slovakia.gov>
→Verify stolen Slovakian personal documents.

SWEDEN

1. **Passport Validity Check:** <https://www.sverige.se>
→Check Swedish passport and national ID card status.
2. **Upplysning:** <https://www.upplysning.se>
→Discover tax information and access the Swedish social security number system.

UNITED KINGDOM

1. **ID Document Validation Guide:** <https://www.gov.uk>
→Learn how to verify UK identification documents' authenticity.

2. **Driver's License Check:** <https://www.gov.uk/check-driving-licence>

→A tool for checking the validity of UK driver's licenses.

UKRAINE

1. **Invalid Document Check:** <https://www.ukraine.gov>

→Check Ukrainian personal documents for validity.

Dictionary, Translation, and Decoding

General Translation

- Google Translate: Translate text, documents, and websites from any language into any other language.
- Google Document Translation: Allows you to translate document files with ease. Works with .doc, .docx, .odf, .pdf, .ppt, .pptx, .ps, .rtf, .txt, .xls, and .xlsx file types.
- DeepL Translator: Translate text and full document files instantly using AI.
- Yandex Translate: Synchronized translation for 100 languages, predictive typing, dictionary with transcription, pronunciation, and usage examples, and many other features.
- Translation2: Another free online translation tool.
- TypeIt: Handy keyboard shortcuts that take zero time to learn. Allows you to switch between languages while typing.
- Morse Code Translator: A simple tool that allows you to translate Morse code into readable text.
- Stars21: Combines translators from Google, Bing, Baidu, Yandex, and more into one simple tool.
- PDF Regional Naming Conventions: This document describes the different naming conventions used in a variety of different languages. [Archived copy](#).
- Translit: A handy Cyrillic transliteration tool. This will come in handy when working with Russian, Belarusian, Ukrainian, Armenian names.
- Lingva: Alternative front-end for Google Translate, serving as a Free and Open Source translator with over a hundred languages available.
- LexiLogos: Use this multilingual virtual keyboard if you need to type in a foreign language.

- [WALS Languoid](#): Helps you determine the local language by latitude and longitude.
- [The Speech Accent Archive](#): Helps determine where a person is from by identifying their accents.
- [Speech-To-Text](#): The IBM Watson Speech to Text service uses speech recognition capabilities to convert Arabic, English, Spanish, French, Brazilian Portuguese, Japanese, Korean, German, and Mandarin speech into text.
- [Grammica](#): This free online grammar check uses a fully advanced machine-learning algorithm to identify and grammar, spelling, punctuation, and syntax errors in your writing.
- [GrammarChecker](#): Allows you to check grammar, spelling, punctuation, vocabulary, and other writing mistakes.
- [Apertium](#): A great open-source machine translation platform.

General Dictionaries

- [Ethnologue](#): Discover and research the world's 7,139 known living languages.
- [Urban Dictionary](#): A crowd-sourced dictionary for common online and urban slang.
- [Emojipedia](#): An encyclopedia of emojis.
- [Smart-Words](#): A dictionary of abbreviations and acronyms commonly used in SMS and chat rooms. Mostly for the boomers.
- [TranslatedLabs](#): This language identifier calculates the similarity of a text with previously inserted reference texts and identifies the language.
- [WhatLanguageIsThis](#): Just copy and paste a text snippet that you want identified into the text box above and click "Go".
- [Texas Glossary](#): A glossary of slang terms commonly used in Texas, USA.
- [PDF Hobo Code Symbols](#): A few images that help translate and visualize "Hobo Code". [Archived copy](#).

General Cracking and Decoding

- CyberChef: One of the best online tools for decoding and encoding texts and files. Created by the GCHQ.
 - dCode: An online toolkit for decoding messages encoded in many different types of ciphers.
 - Cryptii: Modular conversion, encoding, and decoding toolkit.
 - RapidTables: A collection of tools for conversion and decoding.
 - Hashes: Crack MD5, SHA1, MySQL, NTLM, SHA256, and SHA512 hashes online.
 - CrackStation: CrackStation uses massive pre-computed lookup tables to crack password hashes.
 - EpochConverter: A free online tool that converts Unix timestamps into a human-readable format.
-

Closing Notes:

This OSINT resource list was provided to you by **Hack Academy**. We hope you found this collection of tools and websites useful in your open-source intelligence gathering endeavors. Whether you're a beginner or an experienced investigator, these resources are sure to assist you in uncovering valuable insights.

If this resource has piqued your curiosity and you're eager to learn even more, we invite you to join our hacking community or support us on Patreon! Become part of our ever-growing network of hackers, researchers, and enthusiasts.

Join our Hacking Community: whop.com/pro-hack-academy

Grab Hacking Cheat Sheets: buymeacoffee.com/hackacademy/extras

Stay curious, keep learning, and remember—OSINT is a powerful tool when used responsibly. Thank you for using Hack Academy, and we wish you the best of luck in your research and investigations!

Stay safe, and happy hacking!
